[Digital Drawing for Landscape Architecture](#) Bradley Cantrell, Wes Michaels, 2014-11-19 Combine traditional techniques with modern media for more communicative renderings *Digital Drawing for Landscape Architecture Contemporary Techniques and Tools for Digital Representation in Site Design Second Edition* bridges the gap between traditional analog and new digital tools by applying timeless concepts of representation to enhance design work in digital media The book explores specific techniques for creating landscape designs including digitally rendered plans perspectives and diagrams and the updated second edition offers expanded coverage of newer concepts and techniques Readers will gain insight into the roles of different drawings with a clear emphasis on presenting a solid understanding of how diagram plan section elevation and perspective work together to present a comprehensive design approach Digital rendering is faster more

efficient and more flexible than traditional rendering techniques but the design principles and elements involved are still grounded in hand rendering techniques. Digital Drawing for Landscape Architecture exploits both modalities to help designers create more beautiful, accurate and communicative drawings in a professional studio environment. This second edition contains revised information on plan rendering techniques, camera matching workflow and color selection, along with brand new features like Time based imagery and tools. Workflow integration techniques, Photoshop and Illustrator task automation. Over 400 updated images plus over 50 new examples of award winning work. The book takes a tutorial based approach to digital rendering allowing readers to start practicing immediately and get up to speed quickly. Communication is a vital but often overlooked component of the design process and designers rely upon their drawings to translate concepts from idea to plan. Digital Drawing for Landscape Architecture provides the guidance landscape designers need to create their most communicative renderings yet.

Landscape Architecture Documentation Standards Design Workshop, 2016-03-21. SUPERB EXECUTION RELIES UPON RIGOROUS PROJECT DOCUMENTATION. A project will only be built as well as it is documented. This publication focuses on the key documentation needs of the landscape architectural design and construction documentation process. That includes both design documentation and construction documentation as well as all that which occurs in the transition from one phase to the other. Documentation requirements include those components necessary to explore and define design intent, logic, physical proposals and ultimately the specific components included within construction and bid documents. Discover how proper documentation facilitates every stage of the design process from pre planning to construction and leads to a highly resolved built outcome. Understand the principles behind these documentation practices. Implement best practices specific to each documentation phase and drawing from title block and cover sheet design to soil plans and plant protection. Organize keynoting systems, cross referencing and interdisciplinary coordination amongst multiple consultants and vendors. Study sample project documents from a leading landscape architecture firm to better understand the elements and benefits of complete and well coordinated project documentation. These standards have been time tested by over 150 designers at the industry leading landscape architecture firm. Design Workshop reflecting a range of project types including parks, streetscapes, urban spaces and over structure construction. This guide shares the methods behind the success to facilitate exceptional built outcomes through principled documentation practices.
