

The GEM™2000 combines the GEM™500 and the GA-90 into one faster, more accurate, intrinsically safe instrument

The **GEM™2000** was designed by **LANDTEC** specifically for use on landfills to monitor landfill gas (LFG) extraction systems, flares, and migration control systems. The **GEM™2000** samples and analyzes the methane, carbon dioxide and oxygen content of landfill gas. The easy-to-read LCD screen shows the results as percentages of CH₄, CO₂, O₂ and "balance" gas. The **GEM™2000** calculates and displays gas flow rate. It also measures and displays Btu content, temperature (w/optional probe), relative and atmospheric pressures and CH₄ LEL (Lower Explosive Limit).

"The Future of Landfill Gas Monitoring"

Performance

- New technological advances in hardware and software dramatically improve speed and accuracy

Safe

- Certified intrinsically safe for landfill use

Efficient

- Two operating modes, each with two screens for streamlined functionality.

Flexible

- DataField Software offers integration with various PC applications

Experience

- Built on the success of hundreds of field-tested instruments

Compatible

- Now compatible with EnviroComp
