Metaphor In Educational Discourse Lynne Cameron:

Metaphor in Educational Discourse Lynne Cameron, 2003-03-13 Metaphor in Educational Discourse is a superb piece of applied linguistics research that integrates Vygotsky's theory of concepts with current work on metaphor into a coherent framework for investigating how teachers and learners negotiate figurative language in order to promote development in the classroom setting. In what is likely to become the standard for future studies in this area, Lynne Cameron meticulously demonstrates the central role of linguistic metaphors in classroom learning designed to lead learners to a deeper understanding of complex mathematical and scientific concepts. James P. Lantolf, Professor of Applied Linguistics, The Pennsylvania State University. This book reports research into metaphor in use with school students. The setting for the research is a UK school and the participants are around ten years old with their first language well established but still developing concepts and understandings. Close examination of a corpus of classroom spoken discourse reveals how metaphor is employed by their teachers not just in explaining ideas but in managing and mediating the activity of the classroom and the learning of the students. Particular issues discussed include the problems of identifying metaphors in spoken discourse, the conventionalism of metaphors in the discourse of socio-cultural groups, and how a socio-cultural approach can account for systematicity in metaphor use.

Metaphor in Communication, Science and Education Francesca Ervas, Elisabetta Gola, Maria Grazia Rossi, 2017-08-07 This collection of papers presents some recent trends in metaphor studies that propose new directions of research on the embodied cognition perspective. The overall volume in particular shows how the embodied cognition still remains a relevant approach in a multidisciplinary research on the communicative side of metaphors by focusing on both comprehension processes in science as well as learning processes.

Current Approaches to Metaphor Analysis in Discourse Ignasi Navarro i Ferrando, 2019-09-02 This volume takes up the challenge of surveying the present state of a variety of approaches to the identification analysis and interpretation of metaphor across communication channels situational contexts genres and social spheres It reflects three foremost trends of present metaphor research namely the communicative approach the cognitive modelling approach and the multimodality approach These trends are considered as areas of research emerging on the ground of the Conceptual Metaphor Theory initiated by Lakoff The book intends to show their concomitances as well as mark their diversifying paths The aim is to bring about and make apparent the many connections among assumingly different trends stemming from CMT Whereas discrepancies between communicative and conceptual perspectives might seem irredeemable the book emphasizes and claims that the background framework of CMT provides a solid foundation for collaboration and mutual influence Consequently the analysis of metaphor usage in context may provide insights for cognitive modelling proposals The analysis of cognitive configuration of conceptual domains may in turn illuminate our understanding of communicative decisions in discourse The integration of multimodal metaphor analysis puts forward the idea that diverse modal manifestations of metaphor reveal the symbiosis between communicative and cognitive stances The various subject areas and methodologies illuminate the scene of current research in the field The poignant contributions open far reaching avenues into the realm of human thought and discourse

Cinematic Metaphor in Perspective Sarah Greifenstein, Dorothea Horst, Thomas Scherer, Christina Schmitt, Hermann Kappelhoff, Cornelia Müller, 2018-10-08 Over centuries scholars have explored how metaphor contributes to thought language culture This collection of essays reflects on M ller Kappelhoff and colleagues transdisciplinary film studies and linguistics approach formulated in Cinematic Metaphor Experience Affectivity Temporality The key concept of cinematic metaphor opens up reflections on metaphor as a form of embodied meaning making in human life across disciplines The book documents collaborative work reflecting intense sometimes controversial discussions across disciplinary boundaries In this edited volume renowned authors explore how exposure to the framework of Cinematic Metaphor inspires their views of metaphor in film and of metaphor theory and analysis more generally Contributions include explorations from the point of view of applied linguistics Lynne Cameron cognitive linguistics Alan Cienki media studies Kathrin Fahlenbrach media history Michael Wedel philosophy Anne Eusterschulte and psychology Raymond W Gibbs Jr

Corpus-Based Approaches to Metaphor and Metonymy Anatol Stefanowitsch, Stefan Th. Gries, 2008-08-22 The papers in this volume deal with the issue of how corpus data relate to the questions that cognitive linguists have typically investigated with respect to conceptual mappings The authors in this volume investigate a wide range of issues the coherence and function of particular metaphorical models the interaction of form and meaning the identification of source domains of metaphorical expressions the relationship between metaphor and discourse the priming of metaphors and the historical development of metaphors The studies deal with a variety of metaphorical and metonymic source and target domains

including the source domains SPACE ANIMALS BODY PARTS ORGANIZATIONS and WAR and the target domains VERBAL ACTIVITY ECONOMY EMOTIONS and POLITICS In their studies the authors present a variety of corpus linguistic methods for the investigation of conceptual mappings for example corpora annotated for semantic categories concordances of individual source domain items and patterns and concordances of target domain items In sum the papers in this volume show how a wide range of corpus linguistic methods can be used to investigate a variety of issues in cognitive linguistics the combination of corpus methods with a cognitive linguistic view of metaphor and metonymy yields new answers to old questions and to new questions about the relationship between language as a conceptual phenomenon and language as a textual phenomenon

Metaphor in Use Fiona MacArthur, José Luis Oncins-Martínez, Manuel Sánchez-García, Ana María Piquer-Píriz, 2012-10-17 Metaphor is a fascinating phenomenon but it is also complex and multi faceted varying in how it is manifested in different modes of expression languages cultures or time scales How then can we reliably identify metaphors in different contexts How does the language or culture of speakers and hearers affect the way metaphors are produced or interpreted Are the methods employed to explore metaphors in one context applicable in others The sixteen chapters that make up this volume offer not only detailed studies of the situated use of metaphor in language gesture and visuals around the world providing important insights into the different factors that produce variation but also careful explication and discussion of the methodological issues that arise when researchers approach metaphor in diverse real world contexts The book constitutes an important contribution to applied metaphor studies and will prove an invaluable resource for the novice and experienced metaphor researcher alike

Integrating Gestures Silva Ladewig, 2020-07-20 Gestures are now viewed as an integral part of spoken language But little attention has been paid to the recipients cognitive processes of integrating both gesture and speech How do people understand a speaker s gestures when inserted into gaps in the flow of speech What cognitive semiotic mechanisms allow this integration to occur And what linguistic and gestural properties do people draw on when construing multimodal meaning This book offers answers by investigating multimodal utterances in which speech is replaced by gestures Through fine grained cognitive linguistic and cognitive semiotic analyses of multimodal utterances combined with naturalistic perception experiments six chapters explore gestures potential to realize grammatical notions of nouns and verbs and to integrate with speech by merging into multimodal syntactic constructions Analyses of speech replacing gestures and a range of related phenomena compel us to consider gestures as well as spoken and signed language as manifestations of the same conceptual system An overarching framework is proposed for studying these different modalities together a multimodal cognitive grammar

Second Language Conversations Rod Gardner, Johannes Wagner, 2005-12-07 This collection is the first to consistently adopt Conversation Analysis as an approach to second language interaction By examining first and second language speakers participation in a wide range of activities it challenges the dominant view of nonnative speakers as deficient communicators Proposing instead to understand second language users

conversational participation as interactional achievement the book makes a powerful case for ethnomethodological respecification in second language research Professor Gabriele Kasper University of Hawai i Conversations involving speakers whose first language is not the language in which they are talking have become widespread in the globalized world Migration increased travel for business or pleasure as well as communication through new technologies such as the internet make Second Language Conversations an increasingly common everyday event In this book Conversation Analysis is used to explore natural casual talk between speakers in a second language The contributors shift emphasis away from controlled contexts such as the classroom towards more sociable environments in which people go about their daily routines English German French Japanese Finnish and Danish are all analyzed as second languages within a variety of professional educational and sociable situations This collection of essays aims to present naturally occurring Second Language Conversations in order to show what speakers in these situations do how they utilize first language conversational practices and whether or not grammar vocabulary and pronunciation help or hinder the construction of meaning *Applied Linguistics as Social Science* Alison Sealey,Bob Carter,2004-05-01 *Applied Linguistics as Social Science* surveys the increasing dialogue between linguistics and social theory The book shows how social theory applied linguistics and sociolinguistics share a set of common concerns and how an analysis of these to produce a social scientific account of applied linguistics helps to explain the interaction between social structures human agents and language Foreword Introduction Making connections some key issues in social theory and applied linguistics Sociology and ideas about language Language as a cultural emergent property Researching language learning theories evidence claims Social categories and theoretical descriptions Social domain theory interpreting intercultural communication Language in the world properties and powers A social realist approach to research in applied linguistics
