Research in Education ,1969 Language Education in the School Curriculum Ken Cruickshank,Stephen Black,Honglin Chen,Linda Tsung,Jan Wright,2020-05-14 There is widespread concern in all English speaking countries at the rapid decline in study of languages The promise of languages for all in the UK and North America in the 1970s marked a shift from languages as lite subjects for the privileged few but this promise has not been fulfilled This book explores the reasons for and solutions to this decline More importantly it looks at how these trends have been reversed in successful school programs and the implications of this for language education policy makers The study draws on an analysis of data from 600 primary secondary and community languages schools over six years and from detailed case studies in a representative sample of 45 successful schools The book proposes a range of strategies to address the decline from engaging classroom learning assessment outcomes and embedding languages as central in school curriculum on the one level to a mix of incentives and mandation for language study especially at upper secondary school level The authors explore the impact of learning languages on the thinking educational experiences and outcomes of young people across a range of ethnic backgrounds and socioeconomic statuses They show the importance of having equal access to languages study in a world where young people will have increasingly more diverse working lives and argue that the gap in languages between policy and uptake is really a gap in the thinking of policy makers and government **Latinos in American Football** Mario Longoria,Jorge Iber,2020-03-06 In 1927 Cuban national Ignacio S Molinet was recruited to play with the Frankford Yellow Jackets of the old NFL for a single season Mexican national Jose Martinez Zorrilla achieved 1932 All American honors These

Memphis Hoops Keith Brian Wood, 2023-08-18 Memphis Hoops tells the story of basketball in Tennessee's southwestern most metropolis following the 1968 assassination of Martin Luther King Jr Keith Brian Wood examines the city through the lens of the Memphis State University basketball team and its star player turned coach Larry Finch Finch a Memphis native and the first highly recruited black player signed by Memphis State helped the team make the 1973 NCAA championship game in his senior year In an era when colleges in the south began to integrate their basketball programs the city of Memphis embraced its flagship university's shift toward including black players Wood interjects the forgotten narrative of LeMoyné Owen's the city's HBCU 1975 NCAA Division III National Championship team as a critical piece to understanding this era Finch was drafted by the Lakers following the 1973 NCAA championship but instead signed with the American Basketball Association's Memphis Tams After two years of playing professionally Finch returned to the sidelines as a coach and would eventually become the head coach of the Memphis State Tigers Wood deftly weaves together basketball and Memphis's fraught race relations during the post civil rights era While many Memphians viewed the 1973 Tigers championship run as representative of racial progress Memphis as a whole continued to be deeply divided on other issues of race and civil rights And while Finch was championed as a symbol of the healing power of basketball that helped counteract the city's turbulence many black players and coaches would discover that even its sports mirrored Memphis's racial divide Today as another native son of Memphis Penny Hardaway has taken the reigns of the University of Memphis's basketball program Wood reflects on the question of progress in the city that saw King's assassination little more than forty years ago In this important examination of sports and civil rights history Wood summons social memory from an all too recent past to present the untold and unfinished story of basketball in the Bluff City
