Built to Thrive: Using Innovation to Make Your Mark in a Connected World Jay van Zyl, 2011-11-12 Built to Thrive is about unpacking the drivers that I have noticed in the landscape that do not yet have a place in our existing vocabulary It is about ceasing to ignore the signs and beginning to embrace the changes that are becoming more tangible with every day that passes It is about recognizing the amplified importance of the human as a social being in this dawning age of transparency and systemic activity The individual becomes the collective as we move into a sphere of shared value creation ideation and knowledge dissemination Existing in this new business landscape is not about eliminating the competition but rather working together in a bid to share resources and expand far beyond what we could ever hope to achieve as individual organizations Through Built to Thrive I hope to open your mind and introduce you to a way of thinking that will fundamentally shift your views and may provide a lifeline in a world where the new school will rule

Creating the Land of the Sky Richard D. Starnes, 2010-03-12 A sophisticated inquiry into tourism's social and economic power across the South In the early 19th century planter families from South Carolina Georgia and eastern North Carolina left their low country estates during the summer to relocate their households to vacation homes in the mountains of western North Carolina Those unable to afford the expense of a second home relaxed at the hotels that emerged to meet their needs This early tourist activity set the stage for tourism to become the region's New South industry After 1865 the development of railroads and the burgeoning consumer culture led to the expansion of tourism across the whole region Richard Starnes argues that western North Carolina benefited from the romanticized image of Appalachia in the post Civil War American consciousness This image transformed the southern highlands into an exotic travel destination a place where both climate and culture offered visitors a myriad of diversions This depiction was further bolstered by partnerships between state and federal agencies local boosters and outside developers to create the attractions necessary to lure tourists to the region As tourism grew so did the tension between leaders in the industry and local residents The commodification of regional culture low wage tourism jobs inflated land prices and negative personal experiences bred no small degree of animosity among mountain residents toward visitors Starnes's study provides a better understanding of the significant role that tourism played in shaping communities across the South
