Management Accounting Atkinson 6th Edition:

Management Accounting Professor Carsten Berkau, 2020-04-20 *Management Accounting* is written for students in international Business Management study programs. It covers the widely applied syllabus of Cost Accounting and Management Accounting at universities on bachelor's and master's level. The book is based on more than 20 years academic teaching experience in Germany and at international universities in South Africa, Malaysia, China, the Netherlands, and South Korea. In this text book, the application of methods and instruments comes first. Management Accounting follows a case study based approach. All cases are taken from previous exam papers and explained in detail. The text book starts with a case study of a manufacturing company and compares Financial Accounting to Management Accounting. It covers two points of view: 1. a General Management view with aspects of business planning, cost-volume-profit analysis, degree of operating leverage, mergers and cross border acquisitions, and risk valuation. 2. a Cost Accounting view with Management Accounting systems, flexible budgeting, cost allocations, performance measurement and monitoring, reporting, calculation, manufacturing accounting, job order and process costing, activity based costing, and multi-level contribution margin Accounting. On the UVK website, numerous exam tasks and complete solutions thereto are available in English.

Management Accounting and Asian Perspectives Carsten Berkau, Keabetswe Sylvia Berkau, Mohd Ridzuan Darun, 2021-10-18 The book starts with a comparison of financial accounting and management accounting, both discussed based on the production firm PENOR Ltd. It further demonstrates accounting work in support of general management, CVP analysis, DOL, performance measurement, risk management, and M/A as well as cost accounting structures for absorption and marginal cost accounting systems, internal cost allocations, reporting, monitoring, manufacturing accounting, calculation, contribution margin accounting, and activity based costing. The content is explained by detailed case studies. This Asia edition also includes real case studies about companies in Malaysia. All chapters outline the learning objectives, provide an overview, include case studies, and how it is done, paragraphs. They end with a summary, the explanation of new technical terms, and a question bank with solutions for checking your learning progress. On the internet, you can find more than 300 exam tasks with solutions, as well as YouTube videos from the authors.
