Guidelines for Understanding, Adjudicating, and Resolving Disputes in Elections Chad Vickery, 2011 **Exploiting the Knowledge Economy** Paul M. Cunningham, Miriam Cunningham, 2006 Adaptation of applied information and communication technologies ICT research results is one of the greatest challenges faced in building the global knowledge economy This set of two books brings together a collection of contributions on commercial government or societal exploitation of applied ICT

E-Voting Case Law Ardita Driza Maurer, Jordi Barrat, 2016-03-09 E voting is the use of electronic means in the casting of the vote at political elections or referendums This book provides an overview of e voting related case law worldwide and explains how judicial decisions impact e voting development With contributions by renowned experts on thirteen countries the authors discuss e voting both from controlled environments such as voting machines in polling stations and uncontrolled ones including internet voting Each chapter examines a group of country specific leading judicial decisions on e voting and their likely impact on its future development Reference is made to emerging standards on e voting such as the Recommendation Rec 2004 11 of the Council of Europe the only international instrument on e voting regulation and to other countries case law The work provides a broader informative and easily accessible perspective on the historical political and legal aspects of an otherwise very technical subject and contributes to a better understanding of the significance of case law and its impact in shaping e voting s future development The book will be significantly useful to anyone with an interest in e voting in particular decision makers and officials researchers and academia as well as NGOs and providers of e voting solutions

Networks of (Dis)Trust Vicente Chua Reyes Jr., 2019-09-17 Networks of Distrust The Impact of Automation Corruption and Media on Philippine Elections discusses how in a Philippine context the bureaucracy and the Commission on Elections is dysfunctional and that corruption has a ubiquitous impact on governance and administration that has defined how the state operates Scholars and commentators have described Philippine democracy as a paradox This book uses the unprecedented May 2010 synchronized automation of elections an attempt at electoral engineering to better understand the lingering paradox of Philippine politics and its public administration system **Governance Reform Under Real-World Conditions** Sina Odugbemi, Thomas Jacobson, 2008-06-13 Although necessary and often first rate technocratic solutions alone have been ineffective in delivering real change or lasting results in governance reforms This is primarily because reform programs are delivered no in controlled environments but under complex diverse sociopolitical and economic conditions Real world conditions In political societies ownership of reform programs by the entire country cannot be assumed public opinion will not necessarily be benign and coalitions of support may be scare or nonexistent even when intended reforms really will benefit those who need them most While the development community has the technical tools to address governance challenges experience shows that technical solutions are often insufficient Difficulties arise when attempts are made to apply what are often excellent technical solutions Human beings either acting alone or in groups small and large are

not as amenable as are pure numbers and they cannot be ignored In the real world reforms will not succeed and they will certainly not be sustained without the correct alignment of citizens stakeholders and voice Governance Reform under Real World Conditions Citizens Stakeholders and Voice is a contribution to efforts to improve governance systems around the world particularly in developing countries The contributors who are academics and development practitioners provide a range of theoretical frameworks and innovative approaches and techniques for dealing with the most important nontechnical or adaptive challenges that impede the success and sustainability of reform efforts The editors and contributors hope that this book will be a useful guider for governments think tanks civil society organizations and development agencies working to improve the ways in which governance reforms are implemented around the world Official Gazette Philippines,1998

Election Administration Carl W. Dundas,2015-05-27 The legal design is the key instrument in creating the substratum of good election administration It is the legal design of the electoral framework that facilitates the application of best electoral practices and empowers electoral management bodies to create maintain and apply best electoral practices It is the legal design that sets the tone for transparency creates the tools for good management practices and ensures the maintenance of oversight of a level playing field during election campaigns The reform of election administration is often triggered by post general elections performance audits to identify and remedy weaknesses observed at the last general election and enables the election environment to be resilient and experience continuous renewal through the legal reform process

Electronic Voting in Government Elections to Promote Democracy K. M. Nurul Huda,2024-03-26 The manual process used in elections is weakened by human interference it causes irregularities in the polls and delays vote counts This book explores the benefits of replacing it with the electronic system which has improved the quality of elections in many countries The book has grouped democratic countries into two categories mature democracies and new democracies Germany Japan the Netherlands the UK and the USA represent the first group and Bangladesh Brazil India Pakistan Russia and the Philippines represent the second group The first group overcomes malpractice in elections through long exercises when they could be using technology for accurate and swift delivery of poll results For instance the US can overcome controversial elections by empowering the Federal Election Commission to establish a uniform system Colonial and dictatorial legacies instigated citizens undemocratic behavior in new democracies Electronic voting has fixed malpractices in their elections in a shorter period Therefore this book argues that electronic voting should be implemented in both mature and new democracies Computerizing election administration William C.
