More tools for math

SMART Notebook Math Tools is an add-on to SMART Notebook software, giving teachers access to a comprehensive set of math-specific tools, in addition to all the great features and Gallery objects in SMART Notebook.

Create, explore, evaluate and solve with SMART Notebook Math Tools. As an add-on to award-winning SMART Notebook collaborative learning software, it combines all the tools that teachers need to teach math in a single application.

One application for everything

With SMART Notebook Math Tools, teachers no longer have to switch between multiple software applications to access the tools they need to make math engaging and understandable. It centralizes teachers' essential math tools in one location. The software's customizable toolbar is built into SMART Notebook software, so it's quick and easy for teachers to access and incorporate dynamic tools into their math lessons.

Lessons that measure up

With this software, teachers have an easy way to demonstrate math concepts visually, and make their lessons more interactive and easier to comprehend. SMART Notebook Math Tools provides teachers with all the tools they need to progress through an entire math concept – from lesson preparation to graphing and solving complex equations.

The large selection of dynamic and intuitive tools includes an advanced equation editor, Texas Instruments™ emulator launcher, custom graph builder, shape divider, and table and graphing tools. Teachers can easily demonstrate changes and relationships in math concepts using these flexible tools.

The software also offers handwriting recognition for mathematical equations. It means that teachers and students can simplify, solve and graph handwritten equations, making SMART Notebook Math Tools ideal for use on a SMART Board™ interactive whiteboard.

Support for all learning styles

SMART Notebook Math Tools enables teachers to represent concepts symbolically, numerically and visually. Its comprehensive set of math tools improves engagement and retention for all students – no matter their learning style. The software is designed for middle and secondary math classrooms, but many of its tools are ideal for primary math lessons as well.
