- Notice there is an ID column. This is your primary key, which is a field that contains a unique value for each record in a table, such as social insurance number, employee number, or natural number. This is important if you want to combine tables.
- Last is called a Field Name, and the name Smith is called a Field Content.

Working with Records and Fields

- Click on the cell containing the first name Dan.
- From the Fields & Columns Dialogue Box find the Insert.
- Notice where the column went relative to the first name field.
- From the same location, select the Delete Column option. Click Yes.
