Middle Powers And The Rise Of China:

Middle Powers and the Rise of China Bruce Gilley, Andrew O'Neil, 2014-07-08 This is the first work to examine the importance and role of middle powers in the key phenomenon of contemporary international politics the rise of China This book reviews China's middle power relations with South Korea Malaysia Thailand Indonesia Australia South Africa Turkey and Brazil

Middle Powers and the Rise of China Bruce Gilley, Andrew O'Neil, 2014-09-10 China's rise is changing the dynamics of the international system Middle Powers and the Rise of China is the first work to examine how the group of states referred to as middle powers are responding to China's growing economic diplomatic and military power States with capabilities immediately below those of great powers middle powers still exercise influence far above most other states Their role as significant trading partners and allies or adversaries in matters of regional security nuclear proliferation and global governance issues such as human rights and climate change are reshaping international politics Contributors review middle power relations with China in the cases of South Korea Malaysia Thailand Indonesia Australia South Africa Turkey and Brazil addressing how these diverse nations are responding to a rising China the impact of Chinese power on each and whether these states are being attracted to China or deterred by its new power and assertiveness Chapters also explore how much or how little China and for comparison the US value middle powers and examine whether or not middle powers can actually shape China's behavior By bringing a new analytic approach to a key issue in international politics this unique treatment of emerging middle powers and the rise of China will interest scholars and students of international relations security studies China and the diverse countries covered in the book

Middle Powers and Regional Influence Joshua B. Spero, 2018-11-16 In the growing literature on middle powers this book contributes by expanding case study analysis and extending international relations theory in its application to foreign policy decisions Thus this book builds on prominent middle power literature and aims to advance our theoretical understanding for why crucial foreign policies were made by the pivotal middle powers this book examines Poland South Korea and Bolivia For this book's three case studies and their first term leadership's critical junctures from first term post communist Poland post authoritarian post ruling party South Korea and post colonial Bolivia we have the antecedents for contemporary middle powers essential for realizing the regional evolution for cooperative change with greater powers systemically we may then grasp today why those historical foreign policies albeit not so long ago give us crucial antecedents for adapting and trying yet again to resolve seemingly perennial power dilemmas regionally peacefully Here are why middle power impact matters not only regionally for stronger dominant greater power neighbours but also for transformative middle power leaderships which proved pivotal geopolitically for their region's challenges and changes

Security Strategies of Middle Powers in the Asia Pacific Ralf Emmers, Sarah Teo, 2018-02-05 Security Strategies of Middle Powers in the Asia Pacific examines what drives the different regional security strategies of four middle powers in the Asia Pacific Australia Indonesia South Korea and Malaysia Drawing on the extant

middle power literature the authors argue that the regional security strategies of middle powers could take two forms namely functional or normative A functional strategy means that the middle power targets its resources to address a specific problem that it has a high level of interest in while a normative strategy refers to a focus on promoting general behavioural standards and confidence building at the multilateral level This book argues that whether a middle power ultimately employs a more functional or normative regional security strategy depends on its resource availability and strategic environment **Korea's Middle Power Diplomacy** Seungjoo Lee,Sangbae Kim,2022-05-17 This volume discusses Korea s role as a middle power in the midst of the 21st century global power shift Focusing on Korea s middle power diplomacy from the perspective of coalition building the book discusses structural factors that shape middle power strategy and diplomacy Written by leading Korean researchers the chapters use diverse methodologies to offer a range of perspectives on Korea s place in the developing global order Topics discussed include South Korea s approach to technology policy in the midst of US China cyber competition the East Asian Thucydides Trap MITKA and middle power diplomacy Korea s role in the South China Sea dispute and South Korean cyber security Providing a unique treatment of middle power opportunities and motivations in the East Asia region this volume will be of interest to students and scholars of international relations Asian politics diplomacy security studies and global governance Rethinking Middle Powers in the Asian Century Tanguy Struye de Swielande,Dorothee Vandamme,David Walton,Thomas Wilkins,2018-09-27 The term middle power is conceptually fragile Some scholars have even argued for abandoning it This book argues that the concept needs to be analysed more profoundly and that new analytical tools need to be developed to better understand the phenomenon The traditional approach based on Western states is insufficient and has become increasingly irrelevant in a transformed global environment Instead of drawing from a single theory of international relations the contributors have chosen to build upon a wide range of theories in a deliberate demonstration of analytic eclecticism A pluralistic approach provides stronger explanations while remaining analytically and intellectually rigorous Many of the theory contributions are reconsidering how the largely Western bases of such theorising need revising in light of the emerging middle powers many of which are in Asia Presenting a strong argument for studying middle powers this book explores both the theory and empirical applications of the concept by rethinking the definition and characteristics of middle powers using a range of case studies It examines changes in the study of middle powers over the last decade proposing to look at the concept of middle powers in a coherent and inclusive manner Finally it aims to further the discussion on the evolution of the international system and provides sound conclusions about the theoretical usefulness and empirical evolution of middle powers today Awkward Powers: Escaping Traditional Great and Middle Power Theory Gabriele Abbondanza,Thomas Stow Wilkins,2021-10-04 This book introduces the editors new concept of Awkward Powers By undertaking a critical re examination of the state of International Relations theorising on the changing nature of the global power hierarchy it draws attention to a number of countries that fit awkwardly into existing but outdated categories such as

great power and middle power. It argues that conceptual categories pertaining to the apex of the international hierarchy have become increasingly unsatisfactory and that new approaches focusing on such Awkward Powers can both rectify shortcomings on power theorising whilst shining a much needed theoretical spotlight on significant but understudied states. The book's contributors examine a broad range of empirical case studies including both established and rising powers across a global scale to illustrate our conceptual claims. Through such a novel process we argue that a better appreciation of the de facto international power hierarchy in the 21st century can be achieved.

South Korea's Middle Power Diplomacy in the Middle East Hae Won Jeong, 2022-02-24. This book examines theoretical and empirical approaches to the study of middle powers with reference to South Korea's bilateral relations with Iran, Saudi Arabia, United Arab Emirates and Iraq. It maps the development, political and diplomatic trajectories between South Korea and Iran, Saudi Arabia, United Arab Emirates and Iraq against the historical backdrop of ROK-US alliance and the rise of China. Jeong provides a nuanced analysis of the intersectionality of political economy and foreign policy analysis contextualizing state building processes in ROK and the Middle Eastern countries. This accessible book is intended for students and scholars in area studies and international affairs, career diplomats and South Korean businesses in the Middle East. It should also prove of practical value for journalists and policy makers who are interested in studying the nexus of domestic, regional and international factors that have configured South Korea's Middle East policy.

Middle Powers in Asia Pacific Multilateralism Sarah Teo, 2022-11-25. Drawing on insights from differentiation theory, this book examines the participation of middle powers in multilateralism. Taking Australia, Indonesia and South Korea as examples, the book examines these countries' roles in regional organizations and particularly during the creation of the Asia Pacific Economic Cooperation (APEC) and East Asia Summit. Through its analysis, the book argues that middle powers pursue dilution of major power stratificatory forces as well as functionally differentiated roles for themselves in multilateral diplomacy. The book sets out a valuable new framework to explain and understand the behaviour of middle powers in multilateralism.

South Korea at the Crossroads Scott A. Snyder, 2018-01-02. Against the backdrop of China's mounting influence and North Korea's growing nuclear capability and expanding missile arsenal, South Korea faces a set of strategic choices that will shape its economic prospects and national security. In *South Korea at the Crossroads*, Scott A. Snyder examines the trajectory of fifty years of South Korean foreign policy and offers predictions and a prescription for the future. Pairing a historical perspective with a shrewd understanding of today's political landscape, Snyder contends that South Korea's best strategy remains investing in a robust alliance with the United States. Snyder begins with South Korea's effort in the 1960s to offset the risk of abandonment by the United States during the Vietnam War and the subsequent crisis in the alliance during the 1970s. A series of shifts in South Korean foreign relations followed the Nordpolitik engagement with the Soviet Union and China at the end of the Cold War. Kim Dae Jung's Sunshine Policy designed to bring North Korea into the international community, trustpolitik which sought to foster diplomacy with North Korea and Japan, and changes in South

Korea's relationship with the United States Despite its rise as a leader in international financial development and climate change forums South Korea will likely still require the commitment of the United States to guarantee its security Although China is a tempting option Snyder argues that only the United States is both credible and capable in this role South Korea remains vulnerable relative to other regional powers in northeast Asia despite its rising profile as a middle power and it must balance the contradiction of desirable autonomy and necessary alliance

Ascent C. Roberts,A. Habir,L. Sebastian,2015-03-10 This volume explores the domestic and transnational considerations associated with Indonesia s ascent referring to its rise in terms of hard and soft power and its likely trajectory in the future The range of contributors analyse economic resources religious harmony security regional relations leadership and foreign policy **MIKTA, Middle Powers, and New Dynamics of Global Governance** J. Mo,2014-12-10 This volume is the result

of a 2013 conference held by the Asan Institute for Policy Studies South Korea on the middle power countries of Mexico Indonesia the Republic of Korea Turkey and Australia MIKTA Experts and policymakers discussed how members of the MIKTA can work to advance global governance in emerging global issue areas China and the Islamic World Robert R. Bianchi,2019-02-01 China is building a New Silk Road that runs through the heartland of the Muslim world promising it will create integrated economies and stronger ties across Eurasia and Africa Robert R Bianchi argues that while China has the financial and technical resources to accomplish its infrastructure goals it is woefully unprepared to deal with the social and political demands of its partner countries citizens China and the Islamic World explores how China s leaders and citizens are learning through their relationships with Pakistan Turkey Indonesia Iran Nigeria and Egypt that they have to respect and

adjust to the aspirations of ordinary people throughout the Islamic world not just cater to the narrow band of government and business elites Bianchi demonstrates that turbulent countries along the New Silk Road are likely to transform Chinese society at least as much as China changes them This realization will be deeply unsettling for China's authoritarian rulers who desperately want to monopolize power domestically The party and state bosses have responded to challenges with a contradictory blend of flexibility abroad and rigidity at home compromising with popular demands in one country after another while refusing to negotiate many of the same issues with their own citizens This book shows how China faces a growing struggle to maintain their double-sided statecraft as it becomes apparent that the New Silk Road is not a one-way street

The Rise of China and the China-Russia Strategic Partnership Lei Yu, 2025-02-08 This book argues that China's quest for a strategic partnership with Russia reveals the country's desire to create a geopolitical environment in favour of their country's re-emergence as a great power at the systemic global level The partnership with its no limit is expected to help China counterbalance its perceived US containment and reshape the US-dominated world order By intensifying Sino-Russian economic and energy cooperation and trade in the framework of the partnership China attempts to gain entry to Russia's markets and particularly its energy resources to sustain its economic growth that is viewed by Deng Xiaoping as the basis underlying China's hard power and particularly its military capabilities By intensifying their military collaboration China seeks to gain entry to Russia's military weaponry and technology for the modernization of the People's Liberation Army PLA and work together with Russia to contain their perceived US unilateralism hegemonism and interventionism The Chinese foreign policy elites increasingly view US unilateralism and hegemonism as detrimental to China's core interests e.g. its territorial integrity and national rejuvenation This sheds light on why the Chinese foreign policy elites conceive the China-Russia partnership as vital for China's peaceful development commonly known as peaceful rise overseas and the ballast stone for global peace and strategic stability This book will be of interest to sinologists and scholars of China's foreign policy

Examining Perspectives of Small-to-Medium Powers in Emergent Great Power Competition Philip M. Baxter, 2025-09-29 This book delves into the resurgence of China and Russia as assertive regional powers igniting debates and renewed interest in the dynamics of great power politics and power transitions The questions of how competition with these states will evolve and what the future international system may resemble given their potential regional dominance are at the forefront of global concerns in the coming decades As power politics intensifies the significance of allies and alliance systems escalates becoming critical tools for states seeking to navigate this rising great power competition effectively
