

## My Future Plans in Life

5 pages | 1007 words

As a freshman in high school, getting used to everything that is new is quite difficult. Taking everything in and trying to handle many things at once is a struggle, even though college might seem far away, but in reality, it is only 4 years away. Trust me, there are more urgent things to worry over than college, but you always have to make sure you are always working up to what you want to be in college. Before, when people asked me what I want to be, I had no idea, so the Naviance test helped me immensely. Now, since I know what I like and dislike for my future careers, I now know that I want to be a counseling psychologist. I want to become a counseling psychologist because of the requirements for the job, the responsibilities, and the overall employment outlook. As of 10 years today, I will hopefully have finished regular college and currently be in medical school, I will hopefully become fully licensed when I am 30-34 if I pursue all of my years in the beginning. In order to become a licensed counseling psychologist, you need many requirements. First you need to earn a bachelor degree in psychology which takes about 3 to 4 years, then if you want a doctorate level degree you need 4 to 7 years of graduate school. In order for you to get a license, people usually spend eight to twelve years in order to become a fully licensed psychologist. During the college fair, I visited Miami University, Xavier, and The University of Cincinnati and I had asked if their psychology program is up to other colleges standards, and I was very surprised of all their answers. They all told me that psychology was one of their top programs of all the schools I visited. After I visited the colleges, I looked at their pamphlets, and was relieved that their information was very accurate from what they told me. So far as a freshman I am unable to do anything to help my future career, but the thing that surprised me the most was the amount of universities around me that had such amazing psychology programs. Even though there are many requirements for this field of work, it will eventually pay off and I am willingly to do whatever it takes. The responsibilities of becoming a counseling psychologist is a lot to handle as a freshman, especially since right now I can't help ease the process. Some responsibilities of being a counseling psychologist requires you to include and collect information through observations, interviews, and different types of methods. Another responsibility they have, is to use what they know to understand the individual or group to help them to the best of their abilities. The most difficult responsibility I have learned is making sure you are always up to date with new psychological studies, so you are making sure your patient is receiving the best treatment and care. A responsibility that surprises me is that you work alongside with many other professions such as nurses, teachers, or even clinical doctors....

**Think Outside the Gate** Melisa Mel, 2017-10-12 *Think Outside the Gate* is a book dedicated to all those who work or live in any type of incarceration environment It contains a compilation of lesson plans and presentation outlines which can be used as an example of how one can turn any type of lesson into a think outside the gate experience The think outside the gate mind set is a philosophy that Melisa Mel created as the focal point of her lessons and presentations This approach makes it a priority to keep the students focus on everything and anything outside of their limited incarcerating walls This not only instills hope in them but it also better prepares them for when they cross the prison gates to go live back in society Melisa

Mel feels that better preparing for reentry into society is the most efficient way to ensure a person's success outside of prison so that they do not return to prison. Her hope is that while working or living behind bars a "think outside the gate" mind set is present at all times as that will tackle recidivism at its very core. My Tiny Obsessions blog. Becca Hanson is a reader a voracious reader. She'd rather hang out with Harry and Ron than go on a date or surf the internet. But Becca's also seen a Thestral. Since her best and only real friend Charlotte's death Becca's read 108 023 pages and she's not about to let anything or anyone keep her from reading 108 023 more. Until she meets Max. He's experienced loss too and his gorgeous dark eyes see Becca the way no one else in school can. But Becca's already lost so much she's not about to lose her heart too. The companion novel to *Love and Other Unknown Variables* is an exploration of loss and regret and a celebration of hope and discovering a life worth living again.

Einstein's Pathway to the Special Theory of Relativity Galina Weinstein, 2015-06-18 This book pieces together the jigsaw puzzle of Einstein's journey to discovering the special theory of relativity. Between 1902 and 1905 Einstein sat in the Patent Office and may have made calculations on old pieces of paper that were once patent drafts. One can imagine Einstein trying to hide from his boss writing notes on small sheets of paper and according to reports seeing to it that the small sheets of paper on which he was writing would vanish into his desk drawer as soon as he heard footsteps approaching his door. He

probably discarded many pieces of papers and calculations and flung them in the waste paper basket in the Patent Office. The end result was that Einstein published nothing regarding the special theory of relativity prior to 1905. For many years before 1905 he had been intensely concerned with the topic; in fact he was busily working on the problem for seven or eight years prior to 1905. Unfortunately, there are no surviving notebooks and manuscripts, no notes and papers or other primary sources from this critical period to provide any information about the crucial steps that led Einstein to his great discovery. In May 1905, Henri Poincaré sent three letters to Hendrik Lorentz at the same time that Einstein wrote his famous May 1905 letter to Conrad Habicht promising him four works of which the fourth one, Relativity, was a rough draft at that point. In the May 1905 letters to Lorentz, Poincaré presented the basic equations of his 1905 Dynamics of the Electron, meaning that at this point Poincaré and Einstein both had drafts of papers relating to the principle of relativity. The book discusses Einstein's and Poincaré's creativity and the process by which their ideas developed. The book also explores the misunderstandings and paradoxes apparent in the theory of relativity and unravels the subtleties and creativity of Einstein.

**Introduction to Jonathan Majors** Gilad James, PhD, Jonathan Majors is an American actor who has made a name for himself in recent years for his versatile performances on both stage and screen. Born and raised in Texas, Majors began his career in the theater before transitioning to film and television. Some of his most notable roles include his portrayal of Atticus Freeman in the HBO series *Lovecraft Country*, which earned him critical acclaim and a nomination for a Critics Choice Television Award, and his supporting role in the Spike Lee film *Da 5 Bloods*, which premiered on Netflix in 2020. Majors is also set to have a major role in the Marvel Cinematic Universe, appearing as Kang the Conqueror in the upcoming film *Ant-Man and the Wasp: Quantumania*. Aside from his acting work, Majors is also an accomplished musician and writer. He studied music and composition at the University of North Carolina School of the Arts before pursuing acting full time. He has also written and performed in several of his own plays, including *The Last Black Man in San Francisco*, which was adapted into a feature film in 2019. Majors has cited his upbringing in rural Texas and his experiences as a Black man in America as major influences on his work and his artistic vision, and he has expressed a desire to use his platform as an actor to tell stories that highlight the experiences and struggles of marginalized communities.
