MIT student: Students at Groton tend to be either very smart, very rich, or both, because some people just seem to have it all. Many kids have attended private schools their whole lives. The school favors well-rounded individuals. Athletic recruits also have to be intelligent. In my time at Groton, the kids who were not motivated enough to get through the school's rigors ended up leaving. The admissions process requires an interview during which I recommend candidates dress conservatively while showing themselves to be original thinkers.

Harvard student: The British exam system is for the most part based on assessment objectives: tick the boxes and you're guaranteed a great result. At Eton, while you are taught to tick the boxes, this is merely a preliminary measure; the emphasis is on going beyond the exam and enjoying the subject in all its depth.

Oxford student: Gaining admission to St Albans can prove quite difficult because it is arguably the most selective school in the Washington D.C. area. However, distinguishing oneself above other applicants is no mystery. Performing well on the SSATs and the ISEEs certainly helps the admissions officers look at an applicant more favorably. However, the dynamic applicant that St Albans seeks extends far beyond standardized tests.

Painting as an Art Richard Wollheim, 2023-08-15. One of the twentieth century's most influential texts on philosophical aesthetics, *Painting as an Art* is acclaimed philosopher Richard Wollheim's encompassing vision of how to view art. Transcending the traditional boundaries of art history, Wollheim draws on his three great passions: philosophy, psychology, and art, to present an illuminating theory of the very experience of art. He shows how to unlock the meaning of a painting by retrieving, almost reenacting, the creative activity that produced it. In order to fully appreciate a work of art, Wollheim argues, critics must bring a much richer conception of human psychology than they have in the past. This classic book points the way to discovering what is most profound and subtle about paintings by major artists such as Titian, Bellini, and de Kooning.
