significant contribution to our personal social environmental and economic sustainability Such an approach demands new ways of conceptualizing museum and gallery design new ways of acknowledging the potential of design and new experimental and research led approaches to the shaping of cultural institutions internationally The Future of Museum and Gallery Design should be of great interest to academics and postgraduate students in the fields of museum studies gallery studies and heritage studies as well as architecture and design who are interested in understanding more about design as a resource in museums It should also be of great interest to museum and design practitioners and museum leaders
