Mapping Musical Signification Joan Grimalt,2021-01-23 This book is a unique attempt to systematize the latest research on all that music connotes Musicological reflections on musically expressive content have been pursued for some decades now in spite of the formalist prejudices that can still hindermusicians and music lovers The author organizes this body of research so that both professionals and everyday listeners can benefit from it in plain English but without giving up the level of depth required by the subject matter Two criteria have guided his choice among the many ways to speak about musical meaning its relevance to performance and its suitability to the teaching context The legacy of the so called art music without an interpretive approach that links ancient traditions to our present runs the risk of missing the link to the new generations of musicians and listeners Complementing the theoretical systematic content each chapter includes a wealth of examples including the so called popular music

Smog Check Inspection Manual ,2004 *Pastiche, Fashion, and Galanterie in Chardin's Genre Subjects* Paula

Radisich,2013-12-12 Pastiche Fashion and Galanterie in Chardin's Genre Subjects seeks to understand how Chardin's genre subjects were composed and constructed to communicate certain things to the elites of Paris in the 1730s and 1740s The book argues against the conventional view of Chardin as the transparent imitator of bourgeois life and values so ingrained in art history since the nineteenth century Instead it makes the case that these pictures were crafted to demonstrate the artist's wit esprit and taste traits linked to conventions of seventeenth century galanterie Early eighteenth century Moderns like Jean Sim on Chardin 1699 1779 embraced an aesthetic grounded upon a notion of beauty that could not be put into words the *je ne sais quoi* Despite its vagueness this model of beauty was drawn from the present departed from standards of formal beauty and could only be known through the critical exercise of taste Though selecting subjects from the present appears to be a simple matter it was complicated by the fact that the modernizers expressed themselves through the vehicles of older established forms In Chardin's case he usually adapted the forms of seventeenth century Dutch and Flemish genre painting in his genre subjects This gambit required an audience familiar enough with the conventions of Lowlands art to grasp the play involved in a knowing imitation or pastiche Chardin's first group of enthusiasts accordingly were collectors who bought works of living French artists as well as Dutch and Flemish masters from the previous century notably aristocratic connoisseurs like the chevalier Antoine de la Roque and Count Carl Gustaf Tessin Published by University of Delaware Press Distributed worldwide by Rutgers University Press

Exposure Kathryn Banks,Joseph Harris,2004 The notion of exposure underlies much modern thinking about identity representation ethics desire and sexuality This provocative notion is explored in a

collection of essays selected from and inspired by the proceedings of a conference held in the Department of French at the University of Cambridge in 2002 The authors engage with exposure as both object and mode of representation in a range of cultural media literature critical theory visual art and film They analyse a variety of works from the medieval early modern and modern periods examining not only canonical texts such as Montaigne's *Essais* but also lesser studied works such as the psychoanalytic theory of Didier Anzieu the photomontage self portraits of Claude Cahun and the novel *La Nouvelle Pornographie* by Marie Nimier This volume thus both illustrates and more importantly interrogates the richness of the term exposure in a way that is stimulating for students and researchers alike

Credit, Fashion, Sex Clare Haru Crowston, 2013-10-23 In Old Regime France credit was both a central part of economic exchange and a crucial concept for explaining dynamics of influence and power in all spheres of life Contemporaries used the term credit to describe reputation and the currency it provided in court politics literary production religion and commerce Moving beyond Pierre Bourdieu's theorization of capital this book establishes credit as a key matrix through which French men and women perceived their world As Clare Haru Crowston demonstrates credit unveils the personal character of market transactions the unequal yet reciprocal ties binding society and the hidden mechanisms of political power Credit economies constituted economies of regard in which reputation depended on embodied performances of credibility Crowston explores the role of fashionable appearances and sexual desire in leveraging credit and reconstructs women's vigorous participation in its gray markets The scandalous relationship between Queen Marie Antoinette and fashion merchant Rose Bertin epitomizes the vertical loyalties and deep social divides of the credit regime and its increasingly urgent political stakes
