Supercollider 3 J. Nonte, 2012-12-06 The third annual International Industrialization Symposium on the SuperCollider IISSC held March 13 15 1991 in Atlanta Ga was an enormous success The number of attendees exhibitors and representatives from foreign countries surpassed the totals of previous years There were 740 attendees representing more than 2 dozen universities and colleges 32 states 9 national labs 6 research centers several government entities at the local state and federal level 182 businesses industry and 14 countries More than 100 exhibits sponsored by 85 organizations added to the excitement Getting Down to Business was the theme of this year's Symposium The fact that the Superconducting SuperCollider SSC is indeed underway was the message delivered by the Symposium's keynote speaker Dr Roy Schwitters and expanded upon by the opening plenary speakers The project is moving from the planning stage to actual construction to development and procurement of equipment and to resolution of the technical issues involved in advancing the state of the art in areas such as theory controls systems metallurgy quality control management cryogenics power systems detectors interagency cooperation and funding Plenary speakers included Paul Gilbert Chairman of Parsons Brinckerhoff Quade Douglas Inc

Supercollider 5 P. Hale, 2012-12-06 The fifth annual International Symposium on the Super Collider was a great success Over 700 participants from around the country and the world gathered on May 6 8 1993 in San Francisco to mark the progress of the SSC to discuss current issues and to chart a course of action for the continued development of our understanding of basic subatomic matter Together the American public academic communities private sectors and governments from around the world have embarked on a project critical to maintaining our nation's preeminence as the world's leader in basic scientific research and the practical application of scientific knowledge America has long maintained a commitment to investing in our nation's future The Super Collider represents an essential next step in the direction of scope of human knowledge The theme of the conference reflects these important goals SSC Focusing the World on Next Generation Science The challenge for us today is to spread the message of the importance of investing in America's future This is our task and the task of supporters of the Super Collider throughout the nation Without employing all of our energies our nation will miss an historic opportunity to ensure America's scientific technological and economic leadership in the years ahead as we enter the next millennium

High Performance Computing in Science and Engineering ' 06 Wolfgang E. Nagel, Willi Jäger, 2007-07-26 The last two years have been great for high performance computing in Baden Württemberg and beyond In July 2005 the new building for HLRS as well as Stuttgart's new NEC supercomputer which is still leading edge in Germany have been inaugurated In these days the SSC Karlsruhe is finalizing the installation of a very large high performance system complex from HP built from hundreds of Intel Itanium processors and more than three thousand AMD Opteron cores Additionally the fast network connection with a bandwidth of 40 Gbit/s and thus one of the first installations of this kind in Germany brings the machine rooms of HLRS and SSC Karlsruhe very close together With the investment of more than 60 Million Euro we as the users of such a valuable infrastructure are not only thankful to science managers and

politicians but also to the people running these components as part of their daily business on a 24/7 level
Since about 18 months there are a lot of activities on all scientific advisory and political levels to decide if Germany will install an even larger European supercomputer where the hardware costs alone will be around 200 Million Euro for a five year period
There are many good reasons to invest in such a program because beyond the infrastructure such a scientific research tool will attract the best brains to tackle the problems related to the software and methodology challenges Directory of
