Conform Glenn Beck, 2014-05-06 Glenn Beck the New York Times bestselling author of The Great Reset considers the hot button issue of education in the US exposing the weaknesses of the Common Core school curriculum and examining why liberal solutions fail Public education is never mentioned in the constitution Why Because our founders knew that it was an issue for state and local governments not the federal one It s not a coincidence that the more the federal government has inserted itself into public education over the years the worse our kids have fared Washington dangles millions of dollars in front of states and then tells them what they have to do to get it It s backdoor nationalization of education and it s leading us to ruin In Conform Glenn Beck presents a well reasoned fact based analysis that proves it s not more money our schools need it s a complete refocusing of their priorities and a total restructuring of their relationship with the federal government In the process he dismantles many of the common myths and talking points that are often heard by those who want to protect the status quo Critics of the current system are just teacher bashers Teachers unions put kids first Homeschooled kids suffer both academically and socially local control is an excuse to protect mediocrity Common Core is rigorous and state led Critics of Common Core are just conspiracy theorists Elementary school teachers need tenure We can t reform schools until we eradicate poverty school choice takes money away from public schools Charter schools perform poorly relative to public schools There is no issue more important to America s future than education The fact that we ve yielded control over it to powerful unions and ideologically driven elitists is inexcusable We are failing ourselves our children and our country Conform gives parents the facts they need to take back the debate and help usher in a new era of education built around the commonsense principles of choice freedom and accountability
