DO NOT BEGIN UNTIL YOU ARE INSTRUCTED TO DO SO.

This section of the competition consists of eight problems, which will be presented in pairs. Work on one pair of problems will be completed and answers will be collected before the next pair is distributed. The time limit for each pair of problems is six minutes. The first pair of problems is on the other side of this sheet. When told to do so, turn the page over and begin working. Record only final answers in the designated blanks on the problem sheet. All answers must be complete, legible, and simplified to lowest terms. This round assumes the use of calculators, and calculations may also be done on scratch paper, but no other aids are allowed. Embracing the Beat of Expression: An Psychological Symphony within **Mathcounts Target Practice Questions**

In a world taken by screens and the ceaseless chatter of immediate transmission, the melodic splendor and psychological symphony produced by the published term often diminish into the background, eclipsed by the persistent sound and distractions that permeate our lives. But, set within the pages of **Mathcounts Target Practice Questions** a stunning literary prize brimming with natural thoughts, lies an immersive symphony waiting to be embraced. Crafted by an elegant composer of language, that charming masterpiece conducts readers on an emotional trip, well unraveling the concealed tunes and profound impact resonating within each cautiously crafted phrase.
