education was regarded at different points in history For example Henry VIII and his children were educated at a high point in the Renaissance when educational ideas were regarded as important as well as exciting Queen Elizabeth I was by any standards extremely well educated by contrast Queen Elizabeth II s education has been described as undemanding because her parents wanted her to have a happy childhood Peter Gordon and Denis Lawton have traced changes in royal education through the centuries and related them not only to educational ideas and theories but also to changing political social and religious contexts The monarchy itself has changed as an institution from the semi absolute authority of the Tudors to a much more limited kind of monarchy by the end of the Stuart period after one king had been executed and another exiled to the constitutional monarchy of the 20th century To what extent have such changes made any difference to royal education What is the most appropriate kind of education for future kings and queens in our present day democracy In this book the authors confront these and other such questions and explore some of the answers
