McClellan's War Ethan S. Rafuse, 2011-11-23 An important book that rescues George B McClellan's military reputation. Chronicles Bold brash and full of ambition George Brinton McClellan seemed destined for greatness when he assumed command of all the Union armies before he was 35. It was not to be. Ultimately deemed a failure on the battlefield by Abraham Lincoln, he was finally dismissed from command following the bloody battle of Antietam. To better understand this fascinating, however flawed character, Ethan S. Rafuse considers the broad and complicated political climate of the earlier 19th Century. Rather than blaming McClellan for the Union's military losses, Rafuse attempts to understand his political thinking as it affected his wartime strategy. As a result, Rafuse sheds light not only on McClellan's conduct on the battlefields of 1861-62 but also on United States politics and culture in the years leading up to the Civil War. Any historian seriously interested in the period will come away from the book with useful material and a better understanding of George B. McClellan. *Journal of Southern History*. Exhaustively researched and lucidly written, Rafuse has done an excellent job in giving us a different perspective on Little Mac. Civil War History. Rafuse's thoughtful study of Little Mac shows just how enthralling this complex and flawed individual continues to be. *Blue Gray* magazine.

Quiet Revolution in Welfare Economics Michael Albert, Robin Hahnel, 2017-03-14 This ambitious work presents a critique of traditional welfare theory and proposes a new approach to it. Radical economists Robin Hahnel and Michael Albert argue that an improved theory of social welfare can consolidate and extend recent advances in microeconomic theory and generate exciting new results as well. The authors show that once the traditional welfare paradigm is appropriately modified, a revitalized welfare theory can clarify the relationship between individual and social rationality, a task that continues to be of interest to mainstream and nonmainstream economists alike. Hahnel and Albert show how recent work in the theory of the labor process, externalities, public goods, and endogenous preferences can advance research in welfare theory. In a series of important theorems, the authors extend the concept of Pareto optimality to dynamic contexts with changing preferences and thus highlight the importance of institutional bias. This discussion provides the basis for further analysis of the properties and consequences of private and public enterprise and of markets and central planning. Not surprisingly, Hahnel and Albert reach a number of conclusions at odds with conventional wisdom. Originally published in 1990, *The Princeton Legacy Library* uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Farm to Factory Robert C. Allen, 2021-07-13 To say that history's greatest economic experiment, Soviet communism, was also its greatest economic failure is to say what many consider obvious. Here, in a startling reinterpretation, Robert Allen argues that the USSR was one of the most successful

developing economies of the twentieth century He reaches this provocative conclusion by recalculating national consumption and using economic demographic and computer simulation models to address the what if questions central to Soviet history Moreover by comparing Soviet performance not only with advanced but with less developed countries he provides a meaningful context for its evaluation Although the Russian economy began to develop in the late nineteenth century based on wheat exports modern economic growth proved elusive But growth was rapid from 1928 to the 1970s due to successful Five Year Plans Notwithstanding the horrors of Stalinism the building of heavy industry accelerated growth during the 1930s and raised living standards especially for the many peasants who moved to cities A sudden drop in fertility due to the education of women and their employment outside the home also facilitated growth While highlighting the previously underemphasized achievements of Soviet planning Farm to Factory also shows through methodical analysis set in fluid prose that Stalin s worst excesses such as the bloody collectivization of agriculture did little to spur growth Economic development stagnated after 1970 as vital resources were diverted to the military and as a Soviet leadership lacking in original thought pursued wasteful investments

Jean Paton and the Struggle to Reform American Adoption E. Wayne Carp, 2014 Adoption activist Jean Paton 1908 2002 fought tirelessly to reform American adoption dedicating her life to overcoming American society s prejudices against adult adoptees and women who give birth out of wedlock From the 1950s until the time of her death Paton wrote widely and passionately about the adoption experience corresponded with policymakers as well as individual adoptees promoted the psychological well being of adoptees and facilitated reunions between adoptees and their birth parents She also led the struggle to re open adoption records creating a national movement that continues to this day While open adoption is often now the rule for adoptions within the United States for those in earlier eras adopted in secrecy the records

remain sealed many adoptees live and die without vital information that should be a birthright and birth parents suffer a similar deprivation At this writing only seven of fifty states have open records Kansas and Alaska have never closed theirs E Wayne Carp s masterful biography of Jean Paton brings this neglected civil rights pioneer and her accomplishments into the light Paton s ceaseless activity created the preconditions for the explosive emergence of the adoption reform movement in the 1970s She founded the Life History Study Center and Orphan Voyage and was also instrumental in forming two of the movement s most vital organizations Concerned United Birthparents and the American Adoption Congress Her unflagging efforts over five decades helped reverse social workers harmful policy and practice concerning adoption and sealed adoption records and change lawmakers enactment of laws prejudicial to adult adoptees and birth mothers struggles that continue to this day Read more about Jean Paton at <http://jeanpaton.com>

Schooling Corporate Citizens Ronald W. Evans, 2014-11-27 Schooling Corporate Citizens examines the full history of accountability reform in the United States from its origins in the 1970s and 1980s to the development of the Common Core in recent years Based in extensive archival research it traces the origins and development of accountability reform as marked by key government and business led reports from A Nation at Risk to No Child Left Behind and Race to the Top By using the lens of social studies and civic education as a means to understand the concrete impacts of accountability reforms on schools Evans shows how reformers have applied principles of business management to schools in extreme ways damaging civic education and undermining democratic learning The first full length narrative account of accountability reform and its impact on social studies and civic education Schooling Corporate Citizens offers crucial insights to the ongoing process of American school reform shedding light on its dilemmas and possibilities and allowing for thoughtful consideration of future reform efforts
