

[Note: instructions are in blue in square brackets; delete them in the final document or select appropriate text. This Authorization is designed to either be a companion to the informed consent form or the text can be embedded in an informed consent document. Please note, Authorizations for Psychotherapy notes may not be combined with Informed Consent Documents for Research.]

Authorization to Use or Disclose (Release) of Health Information that Identifies You for a Research Study
[Insert Study Title]

Who May Use or Release Your Health Information and for What Purpose:

If you sign this document, you give permission to (name or other identification of specific health care provider(s) or description of classes of persons, e.g., all doctors, all health care provider(s) or (name of covered entity or entities) to use or disclose (release) your health information that identifies you for the research study described here:

[Provide a description of the specific research study, such as the title and purpose of the research.]

[Insert the following if the study includes the creation of a database or tissue repository that may be used for future research, beyond the life of this study (this information must also be included in the consent form); use of PHI for future, unspecified research shall be allowed... subjects will be given the option to participate in the main study but to in allow the opportunity to participate in secondary or ancillary studies, such as participation in a biobank.]

This study also includes an optional [describe ancillary study and the purpose of the study, i.e. the creation of a database of information and/or a specimen bank that may include blood, tissue, or other bodily fluids...specify per study]. The "optional" box (opt in – not out– is REQUIRED) should appear in the body of the informed consent "portion" of the document, along with the explanation of the proposed risks, benefits, etc. of the optional research [... You do not have to participate in this portion of the study. You may still participate in the main study, even if you don't want to participate in this secondary study. If you have elected to participate in the optional [insert description, i.e. biobank study] as described in this document and the informed consent documents, your health information may be [describe used for disclosed to, etc.]... HIPAA requires you to adequately describe potential future purposes such that it would be reasonable for the individual to expect that his or her protected health information could be used or disclosed to for such future research. Examples may include "Disclosed to appropriately qualified investigators for... future biomedical research... future biomedical research into my specific disease or condition... other... If there is a reasonable possibility that future research may include sensitive types of research, such as research involving genetic analyses or mental health research, that may affect an individual's willingness to participate in the research, this should be included, for example: "Disclosed to appropriately qualified investigators for future biomedical research which could include research on genetic disease, mental health disorders, sexually transmitted diseases".
