There has been an explosion of interest in paddling right across the world in 2020 British Canoeing reported a 40% rise in members with 19 000 signing up in a 3 month period Much of this interest has been in inflatable kayaks with the author's own website inflatablekayaksandpackrafts.com averaging 1 000 visits a day The comparatively low cost the convenience of inflatable kayaks and the fact that you can just get in and go all add up to their appeal And with thousands of miles of waterways in the UK most are within reach of a river or canal where you can paddle your kayak and enjoy being in the fresh air gently travelling through the natural world You see the country from a different perspective and in an eco friendly way But as with everything a little bit of knowledge and technique makes the experience so much more enjoyable That is where this book comes in It provides a perfect introduction to the sport It takes you through the different types of inflatable kayaks so you buy the one that is right for you It shows you the basic on the water skills that you will need including getting in and out how to paddle straight and turn It outlines the gear you will need and talks about where to paddle as well as weather safety maintenance and repair of your equipment It covers kayaking in rivers and canals lakes and lochs and coastal kayaking All aspects are heavily illustrated with colour photographs making it easy to understand and clear to follow
