1. Use Target Reading Skills

How may students begin using the information in:

Figure 1.1: An organism's abilities to eat, move, collect, and collect things to survive from its environment.

Answer: Each organism needs first in a specific type of environment, called its habitat.

Answer: Organisms live in different habitats because they have different requirements for survival.

Answer: They need many different environmental factors.

Studying Populations (Global Reading and Study)

Use Target Reading Skills Practice questions and answers are shown.

How do you determine population size? Answer: Methods of determining population size are direct observations,

indirect observations, sampling, and mark-and-recapture studies. What causes populations to change in size?

Answer: Factors include birth, death, immigration, and emigration.

What are limiting factors? Answer: are factors that can limit population growth if they are unfavorable for the organisms in the population. Food and water, space, and weather conditions can be limiting factors.
