Mao The Unknown Story Jung Chang En Jon Halliday:

Mao Jung Chang, Jon Halliday, 2006-11-14 The most authoritative life of the Chinese leader ever written Mao The Unknown Story is based on a decade of research and on interviews with many of Mao's close circle in China who have never talked before and with virtually everyone outside China who had significant dealings with him It is full of startling revelations exploding the myth of the Long March and showing a completely unknown Mao he was not driven by idealism or ideology his intimate and intricate relationship with Stalin went back to the 1920s ultimately bringing him to power he welcomed Japanese occupation of much of China and he schemed poisoned and blackmailed to get his way After Mao conquered China in 1949 his secret goal was to dominate the world In chasing this dream he caused the deaths of 38 million people in the greatest famine in history In all well over 70 million Chinese perished under Mao's rule in peacetime *Was Mao Really a Monster?* Gregor Benton, Lin Chun, 2013-09-13 Mao The Unknown Story by Jung Chang and Jon Halliday was published in 2005 to a great fanfare The book portrays Mao as a monster equal to or worse than Hitler and Stalin and a fool who won power by native cunning and ruled by terror It received a rapturous welcome from reviewers in the popular press and rocketed to the top of the worldwide bestseller list Few works on China by writers in the West have achieved its impact Reviews by serious China scholars however tended to take a different view Most were sharply critical questioning its authority and the authors methods arguing that Chang and Halliday's book is not a work of balanced scholarship as it purports to be but a highly selective and even polemical study that sets out to demonise Mao This book brings together sixteen reviews of Mao The Unknown Story all by internationally well regarded specialists in modern Chinese history and published in relatively specialised scholarly journals Taken together they demonstrate that Chang and Halliday's portrayal of Mao is in many places woefully inaccurate While agreeing that Mao had many faults and was responsible for some disastrous policies they conclude that a more balanced picture is needed **Tyrannical Minds** Dean A Haycock, 2019-04-02 An incisive examination into the pairing of psychology and situation that creates despotic leaders from the author of Murderous Minds Not everyone can become a tyrant It requires a particular confluence of events to gain absolute control over entire nations First you must be born with the potential to develop brutal personality traits Often this is a combination of narcissism psychopathy Machiavellianism paranoia and an extraordinary ambition to achieve control over others Second your dangerous personality must be developed and strengthened during childhood You might suffer physical and or psychological abuse Finally you must come of age when the political system of your country is unstable Together these events establish a basis to rise to power one that Stalin Hitler Mao Zedong Saddam Hussein and Muammar Qaddafi all used to gain life and death control over their countrymen and women It is how the leaders of the Islamic State hoped to gain such power Though these men lived in different times and places and came from vastly different backgrounds many of them felt respect for each other They often seemed to recognize their shared dark personality traits and viewed them as strengths Only in rare cases did they

show signs of mental disorders Getting inside the heads of foreign leaders and terrorists is one way governments try to understand predict and influence their actions Psychological profiles can help us understand the urges of tyrants to dominate subjugate torture and slaughter Tyrannical Minds reveals how recognizing their psychological traits can provide insight into the motivations and actions of dangerous leaders potentially allow to us predict their behavior and even how to stop them As strongmen and authoritarian leaders around the world increase in number understanding the most extreme examples of tyrannical behavior should serve as a warning to anyone indifferent to the threats posed by political extremism **Mao Zedong** Jon Halliday Jung Chang, Jon Halliday, 2006-04 **Access to History: Mao's China 1936-97 Fourth Edition** Michael Lynch, 2019-07-15 Exam board AQA Pearson Edexcel Level AS A level Subject History First teaching September 2015 First exams Summer 2016 AS Summer 2017 A level Put your trust in the textbook series that has given thousands of A level History students deeper knowledge and better grades for over 30 years Updated to meet the demands of today's A level specifications this new generation of Access to History titles includes accurate exam guidance based on examiners reports free online activity worksheets and contextual information that underpins students understanding of the period Develop strong historical knowledge in depth analysis of each topic is both authoritative and accessible Build historical skills and understanding downloadable activity worksheets can be used independently by students or edited by teachers for classwork and homework Learn remember and connect important events and people an introduction to the period summary diagrams timelines and links to additional online resources support lessons revision and coursework Achieve exam success practical advice matched to the requirements of your A level specification incorporates the lessons learnt from previous exams Engage with sources interpretations and the latest historical research students will evaluate a rich collection of visual and written materials plus key debates that examine the views of different historians Human Nature and the Causes of War John David Orme, 2018-04-07 What are the causes of war Wars are generally begun by a revisionist state seeking to take territory The psychological root of revisionism is the yearning for glory honor and power Human nature is the primary cause of war but political regimes can temper or intensify these passions This book examines the effects of six types of regime on foreign policy monarchy republic and sultanistic charismatic and military and totalitarian dictatorship Dictatorships encourage and unleash human ambition and are thus the governments most likely to begin ill considered wars Classical realism modified to incorporate the impact of regimes and beliefs provides a more convincing explanation of war than neo realism **Voices of the Victims** Hannes H. surrender allowed factions within the German ruling elites to portray their country's military defeat as a stab in the back by weak liberal politicians. They shared beliefs in Bismarck's legacy of blood and iron, the ideology of the master race and Germany's destiny as a world power. Millions had voted for democracy and pacifism in 1928. This angered members of the Pan German League such as newspaper magnate Alfred Hugenberg and his former employer Gustav Krupp. They pursued their nefarious schemes to undermine the Weimar Republic with zero regard for the human cost. Real Politik ruled. Moore reveals that Germany was the world's largest exporter in 1931 and its Reichsbank full of funds when it pointed to the misery of its people and asked for a moratorium on its reparations payments. Foreigners worried about Germany's huge number of unemployed and feared that the country would be overcome by Bolshevism but their fears were groundless because unknown to them Krupp had secretly concluded a contract in which he agreed to assist Stalin in modernising his armed forces provided that Stalin ordered the German Communists to vote with the extreme Right instead of the Left in the German Reichstag. Krupp also helped Stalin create and organise giant collectives to pay for his weaponry. Demoralised by taxation, mass unemployment and misinformation, the German people finally lost their faith in democracy and in 1932 voted to support Hitler. Only a short time later Hindenburg allowed him to become dictator. Yet Krupp, Hugenberg and the Pan Germans who helped Hitler's rise to power seem to have escaped censure for eighty years.

Stalin's Curse Robert Gellately, 2013-03-05 The story of how Stalin ruthlessly built his Red Empire in the aftermath of World War II and what inspired him to build it.

Evolution of Power Xiaobing Li, Xiansheng Tian, 2013-11-21 Evolution of Power: China's Struggle, Survival and Success edited by Xiaobing Li and Xiansheng Tian brings together scholars from multiple disciplines to provide a comprehensive look at China's rapid socio-economic transformation and the dramatic changes in its political institution and culture. Investigating subjects such as party history, leadership style, personality, political movements, civil-military relations, intersection of politics and law and democratization, this volume situates current legitimacy and constitutional debates in the context of both the country's ideology and traditions and the wider global community. The contributors to this volume clarify key Chinese conceptual frameworks to explain previous subjects that have been confusing or neglected, offering case studies and policy analyses connected with power struggles and political crises in China. A general pattern is introduced and developed to illuminate contemporary problems with government accountability, public opposition and political transparency. Evolution of Power provides essential scholarship on China's political development and growth.
