

SC-751

Multi-channel audio has come of age, and Super Audio has the standard. We have produced the SC-751, a new control amplifier inspired by the legendary Model 7, which long reigned supreme as the ultimate performer in its class. The capabilities of the SC-751 are inherited from one of the original components of audio perfection.

Model 7
Introduced in 1974, this legendary stereo control amplifier was conceived to be used by professionals and music lovers. Our founder, Ted S. Mrazek, therefore included frequency equalization for all music that humans are able to hear. The philosophy behind the minimalist design and the special attention to even the smallest (component) details go still, more than thirty years later, inspiring our engineers.

MA-951

The pure class indicator is embodied in the tradition of the legendary Marantz brand. The MA-951 is the ultimate monaural power amplifier for driving even the most demanding speakers with absolute ease. It represents the perfect balance between new-age innovation and traditional quality, and verifies that our pioneering ideas of the celebrated Model 9 live on in the MA-951.

Model 9
A legendary monaural power amplifier introduced in 1961, called 10.01 tube in its days. It was praised for its design, its definition, its stability, high output power, which became the ultimate benchmark for its time. It was also the first model to carry on its front panel, what has become the traditional gold-plated Marantz logo.
