It investigates problematic practices in language testing which are relevant to language test users such as language program directors, testing centers, and language teachers, as well as teachers in training in Graduate Diploma and Master of Arts in Applied Linguistics programs. These issues involve aspects of language testing such as test development, test administration, scoring, and interpretation, use of test results. Chapters in this volume discuss insights about language testing policy, testing world languages, developing program level language tests, and tests of specific language skills and language assessment literacy. In addition, this book identifies two needs in language testing for further examination: the need for collaboration between language test developers, language test users, and language users, and the need to base language tests on real world language use. **Blended Learning: Concepts, Methodologies, Tools, and Applications** Management Association, Information Resources, 2016-08-18 Traditional classroom learning environments are quickly becoming a thing of the past as research continues to support the integration of learning outside of a structured school environment.
