How can it be applied when assessing administrative decision making Other essays examine conditions for enhancing legal quality both in public law and in public organizations Also included are some topical studies that present specific issues in the legal quality of administrative decision making Blind Oracles Bruce Kuklick,2013-10-24 In this trenchant analysis historian Bruce Kuklick examines the role of intellectuals in foreign policymaking He recounts the history of the development of ideas about strategy and foreign policy during a critical period in American history the era of the nuclear standoff between the United States and the Soviet Union The book looks at how the country s foremost thinkers advanced their ideas during this time of United States expansionism a period that culminated in the Vietnam War and d tente with the Soviets Beginning with George Kennan after World War II and concluding with Henry Kissinger and the Vietnam War Kuklick examines the role of both institutional policymakers such as those at The Rand Corporation and Harvard s Kennedy School and individual thinkers including Paul Nitze McGeorge Bundy and Walt Rostow Kuklick contends that the figures having the most influence on American strategy Kissinger for example clearly understood the way politics and the exercise of power affects policymaking Other brilliant thinkers on the other hand often played a minor role providing at best a rationale for policies adopted for political reasons At a time when the role of the neoconservatives influence over American foreign policy is a subject of intense debate this book offers important insight into the function of intellectuals in foreign policymaking

Laruelle Anthony P. Smith, 2017-09-05 Fran ois Laruelles non philosophy or non standard philosophy represents a bold attempt to rethink how philosophy is practiced in relation to other domains of knowledge There is a growing interest in Laruelles work in the English speaking world but his work is often misunderstood as a wholesale critique of philosophy In this book Anthony Paul Smith dispels this misunderstanding and shows how Laruelles critique of philosophy is guided by the positive aim of understanding philosophys structure so that it can be creatively recast with other discourses and domains of human knowledge from politics and ethics to science and religion This book provides a synthetic introduction to the whole of Laruelles work It begins by discussing the major concepts and methods that have framed non philosophy for thirty years Smith then goes on to show how those concepts and method enter into traditional philosophical domains and disempower the authoritarian framework that philosophy imposes upon them Instead of offering a philosophy of politics or a philosophy of science Laruelle aims at fostering a democracy of thought where philosophy is thought together and equal to the object of its inquiry This book will be essential reading for students and scholars interested in contemporary French philosophy and anyone who wants to discover more about one of its foremost practitioners

Decision-Making in American Foreign Policy Nikolas K. Gvosdev, Jessica D. Blankshain, David A. Cooper, 2019-01-24 This foreign policy analysis textbook is written especially for students studying to become national security professionals It translates academic knowledge about the complex influences on American foreign policymaking into an intuitive cohesive and practical set of analytic tools The focus here is not theory for the sake of theory but rather to translate theory into practice Classic paradigms are adapted to fit the changing realities of the contemporary national security environment For example the growing centrality of the White House is seen in the palace politics of the president s inner circle and the growth of the national security apparatus introduces new dimensions to organizational processes and subordinate levels of bureaucratic politics Real world case studies are used throughout to allow students to apply theory These comprise recent events that draw impartially across partisan lines and encompass a variety of diplomatic military and economic and trade issues
