The effect that the Civil War had on the
United States (1861-1865)

The mid-19th century in the United States was dominated
by the burning question of the Civil War, a conflict
that would determine the nation's very soul. From
1861 to 1865, the country was torn apart by
searing regional tensions, a brutal war, and the
process of Reconstruction.

The admission of the
Missouri Compromise
line of 36°30' N latitude
as the boundary between
free and slave states
in 1820 was a key
event in the history of
the United States.

The decision by the Supreme Court, which
ruled that Congress could not ban slavery in
the territories, was a major victory for the
pro-slavery forces. The emergence of the
Republican Party, with its anti-slavery platform, and the
election of Abraham Lincoln in 1860 were seen by many in
the South as direct threats to their way of life and the
institution of slavery.
