Lada User Manual:

My Men Too Mira Peck, 2016-03-08 It is 1973 as a plane soars into the clouds above Amsterdam and heads for New York City Aboard are Alina Sherwin and her American husband Wayne Alina's aspiration is nothing less than happiness but her enthusiasm is marred by the fear of another career failure Her worries are justified Alina the first female chemical engineer in Australia has yet to find employment in her profession Thankfully it does not take long before America feels like home to Alina As she is finally propelled into the executive ranks by supportive colleagues she uses her influence to elevate skilled workers who do not fit the standard profile But when her modernization efforts place her in the path of powerful enemies she must fight to preserve her legacy Meanwhile her husband's insistence on an open marriage compels her to leave him and they both attempt to build new lives Their love is still very much alive but is it powerful enough to bring them back together *My Men Too* continues the international adventures of an intrepid woman in her quest for personal fulfillment and a more just society

car industry in which the carefully thought out ideas of ministerial planners rather than fickle customers in a free market determined what cars were made in a country where the open road was often a 300 mile track across a windswept steppe
