The Philosopher's Stone for Sustainability Yoshiki Shimomura, Koji Kimita, 2012-09-26 Industrial Product Service Systems IPS2 which is defined as an integrated industrial product and service offering that delivers value in use has expanded rapidly over the last decade IPS2 has allowed us to achieve both high added value and high productivity and has enriched our QOL by improving the performance of products and services We are now struggling

with many awkward issues related to sustainability but IPS2 is expected to be the philosopher's stone for solving these issues. Following the pattern of conferences held in Cranfield in 2009, Linköping in 2010 and Braunschweig in 2011, the fourth International CIRP Conference on Industrial Product Service Systems held on November 8-9, 2012 in Tokyo will cover various aspects of IPS2. Topics planned for this year's conference reflect the latest IPS2 information in both the natural sciences and humanities and include case studies from various industries. IPS2 is still a relatively new field so it is important to keep track of the entire context in order to promote more cross-sectional cooperation between multimodal fields and disciplines. The fourth International CIRP Conference on Industrial Product Service Systems will serve as a vital platform for such collaborations and the discussion of new scientific ideas.

Technology Alain Bernard, 2010. Digital Enterprise Technology. DET is more than a concept. Companies are facing new challenges in a context where the references are mostly numerical. Nowadays digital methods and tools are widely generalized. DET 2008 allowed excellent exchanges about the collection of systems and methods for the digital modelling and analysis of the global product development and realisation process in the context of lifecycle management. This book of proceedings gives a short version of the keynotes and proposes the text of the papers that have been presented during DET 2008. This gives a clear view of the actual state of the art and of the industrial needs. This book of proceedings is organized with respect to the topics that were addressed during the conference.
