Cranston, 2014-12-29 Dr Keith Bernard has earned a reputation as a professor with strong convictions and warm rapport with students rarely has reason to recall that he was once considered a human resources hit man But to those who observed him from a safe distance

in his previous career in personnel management it often appeared that he was someone who was capable of firing people without any visible displays of emotion One afternoon Bernard is summoned to the law offices of Harper and Fowler to be deposed in a questionable dismissal wrongful case of one of the district s former employees Bernard testifies and somewhat reluctantly teaches about the very real ethical dimensions of personnel management Through a story telling style that often confounds the lawyers asking scripted questions Bernard reveals for us the unvarnished truth and subtle complexities inherent in educational leadership by responding to the question that is at once both ethical and dramatic that is How shall I act

How to Get All Teachers to Become Like the Best Teachers Todd Whitaker,2024-12-02 There are dramatic differences in the quality of teachers in every school Every building has teachers who consistently engage students and deliver high quality instruction Every building also has teachers with varying ranges of ability If all teachers could be more like the best teachers then we would have significant improvement in every school In this important book Todd Whitaker demonstrates how this can really be achieved With inspiration humor and practical advice Whitaker shares the qualities of the best teachers and how we can teach these qualities to others He shows how the best teachers emphasize the learning relationship focus only on what they can influence and use effective classroom management involving filtering proximity redirection and business mode He then explains how we can coach other teachers by showing not telling by creating subcultures and learning experiences and by leading the way Finally Whitaker describes the importance of hiring highly talented people who form new lines rather than fall in line He provides strategies for asking the right interview questions for choosing the right mentors and for selecting the best hosts for student teachers No matter how education changes there are always outstanding teachers making a difference We can grow our schools by helping even more teachers become exceptional

Teacher Knowledge and Practice in Middle Grades Mathematics ,2008-01-01 This book presents a coherent collection of research studies on teacher knowledge and its relation to instruction and learning in middle grades mathematics The authors provide comprehensive literature reviews

on specific components of mathematics knowledge for teaching that have been found to be important for effective instruction. Based on the analysis of video data collected over a six year project, the chapters present new and accessible research on the learning of fractions, early concepts of algebra and basic statistics and probability. The three sections of the book contain chapters that address research on the development of mathematics knowledge for teaching at the undergraduate level, instructional practices of middle grades teachers and the implications of teacher knowledge of mathematics for student learning. The chapters are written by members of a research team led by the Editor that has been working for the past six years to develop practical and useful theories and findings on variables that affect teaching and learning of middle grades mathematics. Mathematics knowledge for teaching is a topic of great current interest. This book is a valuable resource for mathematics education researchers, graduate students and teacher educators. In addition, professional developers and school district supervisor and curriculum leaders will find the concrete examples of effective teaching strategies useful for teacher workshops.

Effective Mathematics Teaching from Teachers' Perspectives, 2009-01-01

What is effective mathematics teaching? This book represents the first purposeful cross cultural collection of studies to answer this question from teachers' perspectives. It focuses particularly on how teachers view effective teaching of mathematics. Teachers' voices are heard and celebrated throughout the studies reported in this volume. These studies are drawn from many parts of the world, representing both Eastern and Western cultural traditions. The editors and authors have deliberately included the views of teachers and educators from different cultural backgrounds, taking into account that beliefs on effective mathematics teaching and its features are highly influenced by one's own culture. The book will provide readers and scholars with the stimulus to take the ideas presented and expand on them in ways that help improve mathematics education for children, teachers and researchers in both the East and the West.

Hiring the Best Staff for Your School Rick Jetter, 2016-02-05

Hiring the Best Staff for Your School moves beyond typical hiring tools: resumes, applications, transcripts, portfolios and artifacts, and adds effective strategies to the educational leader's recruiting and hiring toolbox. Jetter hones in on the most crucial but often neglected element of talent searches: knowing candidates' attitudes and dispositions about students, learning and instruction, leadership and other crucial educational topics which affect schools today, and provides an innovative model for hiring the best candidates. This book presents a recruitment and hiring process that uses narratives to help school and district leaders delve deeper into understanding the emotions, ideas, reactions and problem solving insights of candidates. The ready-to-use resources found in this book, including real examples of the narrative process in action, dialogues and as a training process, are easy to implement and will strengthen the hiring process to ensure that you recruit and retain the best staff members for any position within your school or district.
