Go Books Gordon Winch, 1997 **How the Birds Got Their Colours**, 2004 *How the Birds Got Their Colours* Basil Johnston, Del Ashkewe, 1978-01-01 Side by side texts in English and Chippewa relate the Chippewa legend of how birds came to have their colors Before the Country Stephanie McKenzie, 2007-01-01 In the context of Northrop Frye's theories of myth and in light of the attempts of social critics and early anthropologists to define Canada and Canadian literature McKenzie discusses the ways in which our decidedly fractured sense of literary nationalism has set indigenous culture apart from the mainstream Why Science and Art Creativities Matter, 2020-01-20 Why Science and Arts Creativities Matter is a ground breaking text which significantly extends current understandings of STEAM and debates about individuation of disciplines vis vis transdisciplinary theory Drawing upon posthumanism new materialism and enactivism this collection of chapters aims to

dwelling further into the ways in which we come to know in relationship with the world. The text draws together a wide set of approaches and points of views to stimulate dialogue and awareness of the different ways in which we can extend the repertoire of human faculties for thinking and experiencing the world. A unique invitation is shared with readers to develop greater understanding of the contribution of education across the arts and sciences and to re-imagine our collective futures. This book is a unique and timely volume that opens up several new lines of enquiry and arguments on STEAM education. It rebalances and readdresses the current emphasis in the literature around STEAM as another newer opportunity to teach content. Instead, it brings a more specific focus on an entwining of contemporary theorists putting theory to work to extend the means for understanding and cultivating science and arts creativities and make explicit key connections with the materiality of practices. This new go-to text offers a demonstration of how the latest research and theoretically engaged thinking, thinking through theory on STEAM education, can be put to work in practice.
