

REACTION PAPER (03 VIDEO 1)

Walang Maliwan is a documentary film by Kara David produced by iWitness under GMA Network, this is all about the number of students at risk of dropping out of school at Burgos East Elementary School, San Guillermo, Isabella. The documentary shows struggles of students to their way to school every day, where they have to cross to river and walk a mile to reach the school, which has become one of the reasons why students do not come to school to continue their studies. Everyone should have the right to education; It was a lack of child support, not poverty, that killed their dreams.

After watching the video, I was mixed emotion of how it made me realize about how privileged an I am blessed in life, I have privilege to go to school or used an a gadget for online class, I have all the means for a quality of education; I do not have to grind to enroll myself in a decent school; and yet I still have the audacity to complain about minor inconveniences. and I think we're even luckier because we live in the city, but I'm more impressed with the people who live in the province because they cross mountains, rivers and other things that can ruin their lives to get to and be able to just study at the school that exists in their area and I salute the teachers that they will put themselves at the risk of being able to teach only the children who live in remote places even if they cross rivers, forests, and mountains.

But what is sad in our time now is that everyone is online unlike before face to face, but the department of education has had thought of a solution, to have radio learning and can be watched on tv, a module for those far from the city. and young people say that as much as we can, no child will be left unable to study during the pandemic no student left behind. We can resist and be able to finish the study even pandemic

Muriel Rukeyser's the Book of the Dead Tim Dayton, 2003-07-07 The Book of the Dead by Muriel Rukeyser was published as part of her 1938 volume U S 1 The poem which is probably the most ambitious and least understood work of Depression era American verse commemorates the worst industrial accident in U S history the Gauley Tunnel tragedy In this terrible disaster an undetermined number of men likely somewhere between 700 and 800 died of acute silicosis a lung disorder caused by prolonged inhalation of silica dust after working on a tunnel project in Fayette County West Virginia in the early 1930s After many years of relative neglect The Book of the Dead has recently returned to print and has become the subject of critical attention In Muriel Rukeyser s The Book of the Dead Tim Dayton continues that study by characterizing the literary and political world of Rukeyser at the time she wrote The Book of the Dead Rukeyser s poem clearly emerges from 1930s radicalism as well as from Rukeyser s deeply felt calling to poetry After describing the world from which the poem emerged Dayton sets up the fundamental factual matters with which the poem is concerned detailing the circumstances of the Gauley Tunnel tragedy and establishes a framework derived from the classical tripartite division of the genres epic lyric and dramatic Through this framework he sees Rukeyser presenting a multifaceted reflection upon the significance particularly the historical significance of the Gauley Tunnel tragedy For Rukeyser that disaster was the emblem of a history in which those who do the work of the world are denied control of the vast powers they bring into being Dayton also studies the critical reception of The Book of the Dead and determines that while the contemporary response was mixed most reviewers felt that Rukeyser had certainly attempted something of value and significance He pays particular attention to John Wheelwright s critical review and to the defenses of Rukeyser launched in the 1980s and 1990s by Louise Kertesz and Walter Kalaidjian The author also examines the relationship between Marxism as a theory of history governing The Book of the Dead and the poem itself which presents a vision of history Based upon primary scholarship in Rukeyser s papers a close reading of the poem and Marxist theory Muriel Rukeyser s The Book of the Dead offers a comprehensive and compelling analysis of The Book of the Dead and will likely remain the definitive work on this poem *Journalism* Tim P. Vos, 2018-05-22 This volume sets out the state of the art in the discipline of journalism at a time in which the practice and profession of journalism is in serious flux While journalism is still anchored to its history change is infecting the field The profession and the scholars who study it are reconceptualizing what journalism is in a time when journalists no longer monopolize the means for spreading

the news Here journalism is explored as a social practice as an institution and as memory The roles epistemologies and ethics of the field are evolving With this in mind the volume revisits classic theories of journalism such as gatekeeping and agenda setting but also opens up new avenues of theorizing by broadening the scope of inquiry into an expanded journalism ecology which now includes citizen journalism documentaries and lifestyle journalism and by tapping the insights of other disciplines such as geography economics and psychology The volume is a go to map of the field for students and scholars highlighting emerging issues enduring themes revitalized theories and fresh conceptualizations of journalism *Zola and Film* Anna Gural-Migdal, Robert Singer, 2005-05-10 French novelist Emile Zola noted for his championship of the Naturalist novel has been one of the most adapted authors in world literature There have been approximately 80 film adaptations of his late 19th century novels and short stories many of which occurred during the silent era of international film production 1895 1927 While the aesthetic elements of Zola s fiction continue to appeal to international cinema the author s thematic naturalism and his scientific methodology have provided an ideological framework that incorporates art science and history into the many cinematic adaptations of his work This collection of essays contributed by scholars of French literature and film explores the dynamic relationship between Zola s fiction and its film adaptations examining critically significant cinematic adaptations of Zola s novels from a variety of theoretical and interdisciplinary perspectives The 13 essays discuss the adaptation of Zola s works within the limitations of the silent cinema the challenges posed by film censorship and the notoriety of the author s naturalist text the ideological inflection given to Zola s working class narratives and Zola s representation of women Zola s works are placed within their respective historical contexts as the essays address encoded anti Nazi sentiment in films produced under the German occupation of France during World War II and the French Communist Party s reception of the filmic adaptation of *Germinal* Other adapted works addressed in these chapters include *La Terre* *Nana* *La Bête humaine* *Au Bonheur des Dames* *Thérèse Raquin* *Gervaise* and *Pot-Bouille*

Landscapes between Then and Now Nicola Brandt, 2020-09-08 In *Landscapes Between Then and Now* Nicola Brandt examines the increasingly compelling and diverse cross disciplinary work of photographers and artists made during the transition from apartheid to post apartheid and into the contemporary era By examining specific artworks made in South Africa Namibia and Angola Brandt sheds light on established and emerging themes related to aftermath landscapes embodied histories unbelonging spirituality and memorialization She shows how landscape and identity are mutually constituted and profiles this process against the background of the legacy of the acutely racially divisive policies of the apartheid regime that are still reflected on the land As a signpost throughout the book Brandt draws on the work of the renowned South African photographer Santu Mofokeng and his critical thinking about landscape *Landscapes Between Then and Now* explores how practitioners who engage with identity and their physical environment as a social product might reveal something about the complex and fractured nature of postcolonial and contemporary societies Through diverse strategies and aesthetics they comment on inherent structures

and epistemologies of power whilst also expressing new and radical forms of self determinism Brandt asks why these cross disciplinary works ranging from social documentary to experimental performance and embodied practices are critical now and what important possibilities for social and political reflection and engagement they suggest **Level Design** Rudolf Kremers, 2009-10-21 Good or bad level design can make or break any game so it is surprising how little reference material exists for level designers Beginning level designers have a limited understanding of the tools and techniques they can use to achieve their goals or even define them This book is the first to use a conceptual and theoretical foundation to build
