The Routledge Encyclopedia of Films Sabine Haenni, Sarah Barrow, John White, 2014-09-15 The Routledge Encyclopedia of Films comprises 200 essays by leading film scholars analysing the most important influential innovative and interesting films of all time Arranged alphabetically each entry explores why each film is significant for those who study film and explores the social historical and political contexts in which the film was produced Ranging from Hollywood classics to international bestsellers to lesser known representations of national cinema this collection is deliberately broad in scope crossing decades boundaries and genres The encyclopedia thus provides an introduction to the historical range and scope of cinema produced throughout the world *Deleuze and Ricoeur* Declan Sheerin, 2011-10-20 What is the self Is it the impregnable cogito of Descartes or the shattered self of Nietzsche Or has it become serendipitously constituted from pieces of fairy tales and novels

childhood comics and soap operas a multitude of forces culled from fashion modern myth culture and recreation Or must we still convince ourselves like Rousseau that the self can never be tainted that it is above all else irrefrangible Paul Ricoeur proposed that the self is formed within the narratives we tell of ourselves that it is itself a form of narrative But is this enough Could a self cohere in a multitude of potential narratives or find unity among its stories In this book Declan Sheerin challenges the theory that the self is narrative alone or that concordance reigns over discordance in the self Drawing upon the works of Gilles Deleuze he proposes that deep to the sense of a unified represented self is a more fundamental self of difference a self that is more than merely coherent narrative *Ex Uno Plura* James T. McHugh, 2003-08-01 Explores the foundations of various state constitutional traditions *Remaking the Frankenstein Myth on Film* Caroline Joan S. Picart, 2012-02-01 Focusing on films outside the horror genre this book offers a unique account of the Frankenstein myth's popularity and endurance Although the Frankenstein narrative has been a staple in horror films it has also crossed over into other genres particularly comedy and science fiction resulting in such films as Abbott and Costello Meet Frankenstein Young Frankenstein The Rocky Horror Picture Show Blade Runner and the Alien and Terminator film series In addition to addressing horror's relationship to comedy and science fiction the book also explores the versatility and power of the Frankenstein narrative as a contemporary myth through which our deepest attitudes concerning gender masculine versus feminine race Same versus Other and technology natural versus artificial are both revealed and concealed The book not only examines the films themselves but also explores early drafts of film scripts scenes that were cut from the final releases publicity materials and reviews in order to consider more fully how and why the Frankenstein myth continues to resonate in the popular imagination **Alternate Americas** M. Keith Booker, 2006-02-28 For more than 50 years science fiction films have been among the most important and successful products of American cinema and are worthy of study for that reason alone On a deeper level the genre has reflected important themes concerns and developments in American society so that a history of science fiction film also serves as a cultural history of America over the past half century M Keith Booker has selected fifteen of the most successful and innovative science fiction films of all time and examined each of them at length from cultural technical and cinematic perspectives to see where they came from and what they meant for the future of cinema and for America at large From Invasion of the Body Snatchers to Star Wars from Blade Runner to The Matrix these landmark films have expressed our fears and dreams our abilities and our deficiencies In this deep seeking investigation we can all find something of ourselves that we recognize as well as something that we've never recognized before The focus on a fairly small number of landmark films allows detailed attention to genuinely original movies including Forbidden Planet Invasion of the Body Snatchers 2001 A Space Odyssey Planet of the Apes Star Wars Close Encounters of the Third Kind Alien E.T. the Extra Terrestrial Blade Runner The Terminator RoboCop The Abyss Independence Day and The Matrix This book is ideal for general readers interested in science fiction and film
