Geography Pnovember Exam 2014 Memo:

The Geography of Injustice Barak Kushner, 2024-03-15 In *The Geography of Injustice* Barak Kushner argues that the war crimes tribunals in East Asia formed and cemented national divides that persist into the present day In 1946 the Allies convened the Tokyo Trial to prosecute Japanese wartime atrocities and Japan's empire At its conclusion one of the judges voiced dissent claiming that the justice found at Tokyo was only the sham employment of a legal process for the satisfaction of a thirst for revenge War crimes tribunals Kushner shows allow for the history of the defeated to be heard In contemporary East Asia a fierce battle between memory and history has consolidated political camps across this debate The Tokyo Trial courtroom as well as the thousands of other war crimes tribunals opened in about fifty venues across Asia were legal stages where prosecution and defense curated facts and evidence to craft their story about World War Two These narratives and counter narratives form the basis of postwar memory concerning Japan's imperial aims across the region The archival record and the interpretation of court testimony together shape a competing set of histories for public consumption *The Geography of Injustice* offers compelling evidence that despite the passage of seven decades since the end of the war East Asia is more divided than united by history

The U.S.-China Military Scorecard Eric Heginbotham, Michael Nixon, Forrest E. Morgan, 2015-09-14 A RAND study analyzed trends in the development of Chinese and U.S. military capabilities in two scenarios centered on Taiwan and the Spratly Islands and multiple types of operations from 1996 to 2017

After the Education Wars Andrea Gabor, 2018-06-12 The education wars have been demoralizing for teachers *After the Education Wars* helps us to see a better way forward Cathy N. Davidson The New York Times Book Review *After the Education Wars* is an important book that points the way to genuine reform Diane Ravitch author of *Reign of Error* and *The Death and Life of the Great American School System* A bestselling business journalist critiques the top-down approach of popular education reforms and profiles the unexpected success of schools embracing a nimbler more democratic entrepreneurialism In an entirely fresh take on school reform business journalist and bestselling author Andrea Gabor argues that Bill Gates, Eli Broad and other leaders of the prevailing education reform movement have borrowed all the wrong lessons from the business world *After the Education Wars* explains how the market-based measures and carrot and stick incentives informing today's reforms are out of sync with the nurturing culture that good schools foster and contrary to popular belief at odds with the best practices of thriving twenty-first century companies as well These rich detailed stories of real reform in action illustrate how enduring change must be deeply collaborative and relentlessly focused on improvement from the grass roots up lessons also learned from both the open source software and quality movements The good news is that solutions born of this philosophy are all around us from Brockton Massachusetts where the state's once failing largest high school now sends most graduates to college to Leander Texas a large district where school improvement spurred by the ideas of quality guru W. Edwards Deming has become a way of life A welcome exception to the doom and gloom canon of education reform *After the Education*

Wars makes clear that what is needed is not more grand ideas but practical and informed ways to grow the best ones that are already transforming schools

Earned Citizenship Michael J. Sullivan, 2019-03-19 The migration and settlement of 11 million unauthorized immigrants is among the leading political challenges facing the United States today But what do the state and citizens owe to unauthorized immigrants given non citizen contributions to their adopted country and connections to citizens who depend on them Earned Citizenship is a normative intervention in migration and citizenship studies that advances the proposition that long term unauthorized immigrant residents should be able to earn legalization and a pathway to citizenship through service to citizens in their adopted communities

Dynamics of American Democracy Wendy J. Schiller, 2020-12-14 Democracy is in crisis Washington is failing Government is broken On these counts many politicians policy experts and citizens agree What is less clear is why and what to do about it These questions are at the heart of Dynamics of American Democracy which goes beneath the surface of current events to explore the forces reshaping democratic politics in the United States and around the world Bringing together leading scholars and practitioners of politics and governance this volume charts a twenty first century landscape beset by ideological polarization and political tribalism rapid demographic economic and technological change the influence of online news and social media and the increasing importance of public attitudes about gender and race Against this fraught background the authors consider the performance of the two party system the operations of Congress and the presidency and the ways in which ordinary citizens form their beliefs and make their voting decisions The contributors work represents a wide range of perspectives and methodological approaches and provides insight into what ails American governance from the practice of politics as tribal warfare to the electoral rules that produce a two party hegemony and from the impact of social media including how differently conservatives and liberals use Twitter to the significance of President Trump in historical and institutional perspective Finally Dynamics of American Democracy goes beyond diagnosis to present and evaluate the value and viability of proposals for reforming politics

The Struggle for Change Marvin T. Chiles, 2023-12-28 A Black majority city with a history of the most severe segregation and inequity Richmond is still grappling with this legacy as it moves into the twenty first century Marvin Chiles now offers a unique take on Richmond s racial politics since the civil rights era by demonstrating that the city s current racial disparities in economic mobility housing and public education actually represent the unintended consequences of Richmond s racial reconciliation measures He deftly weaves municipal politics together with grassroots efforts examining the work and legacies of Richmond s Black leaders from Henry Marsh on the city council in the 1960s to Mayor Levar Stoney to highlight the urban revitalization and public history efforts meant to overcome racial divides after Jim Crow yet which ironically reinforced racial inequality across the city Compellingly written this project carries both local and broader regional significance for Richmonders Virginians southerners and all Americans

Postwar Laura McEnaney, 2018-09-07 When World War II ended Americans celebrated a military victory abroad but the meaning of peace at home was yet to be defined From roughly 1943 onward building a postwar society became the new national project and every interest group involved in the war effort from business leaders to working class renters held different visions for the war s aftermath In Postwar Laura McEnaney plumbs the depths of this period to explore exactly what peace meant to a broad swath of civilians including apartment dwellers single women and housewives newly freed Japanese American internees African American migrants and returning veterans In her fine grained social history of postwar Chicago McEnaney puts ordinary working class people at the center of her investigation What she finds is a working class war liberalism a conviction that the wartime state had taken things from people and that the postwar era was about reclaiming those things with the state s help McEnaney examines

vernacular understandings of the state exploring how people perceived and experienced government in their lives For Chicago s working class residents the state was not clearly delineated The local offices of federal agencies along with organizations such as the Travelers Aid Society and other neighborhood welfare groups all became what she calls the state in the neighborhood an extension of government to serve an urban working class recovering from war Just as they had made war the urban working class had to make peace and their requests for help large and small constituted early dialogues about the role of the state during peacetime Postwar examines peace as its own complex historical process a passage from conflict to postconflict that contained human struggles and policy dilemmas that would shape later decades as fatefully as had the war
