The publication of **Standards of Performance (SOP) Manuals**, **On-The-job Training Manuals** in all hotel departments is a prerequisite and significant component of implementing a Training Plan in hotel operations. The manual provides employees with a clear picture of what will be expected of them and, in turn, what they can expect for their dedication to quality.

HCC Hospitality Standards of Performance (SOP) Manuals begin with a set of customer-focused service standards for "Guest Expectations" which apply to all service staff. The service standards must be communicated to all employees to make sure that employees know precisely what is expected of them and gain commitment to meeting these standards.

The content of the "**Standards of Performance (SOP) Manuals**" is a list of key tasks that line employees and supervisors must perform to ensure the delivery of quality service to guests. Most of the key tasks represent opportunities for employees to meet and exceed a guest's expectations.

The core part of the manuals is the "**SERVICE TASK Breakdown**" of different key job tasks inclusive of **PROCEDURES**, and **STANDARDS** of judging correct performance of job duties. A breakthrough of the manuals is that the Task Breakdown of different key tasks is not merely a reference guide for the Training Plan, but can also be the training materials for all employees to perform their daily duties.

The measurement of conformance to standards is particularly important. We must determine how well standards are being met, identify areas needing attention and provide helpful feedback to employees. This includes **recognizing top performers, redirecting incorrect performance and personal coaching for improvement.**

The system implementation and upkeep of the Training Plan is the responsibility of the Hotel General Manager.

Hotel Operating Manual:

The Routledge Handbook of Hotel Chain Management Maya Ivanova, Stanislav Ivanov, Vincent P.

Magnini, 2016-05-05 Understanding the global hotel business is not possible without paying specific attention to hotel chain management and dynamics. Chains are big business: approximately 80 percent of hotels currently being constructed around the world are chain affiliated and in 2014 the five largest brands held over a one million rooms. The high economic importance of the hotel chains and their global presence justifies the academic research in the field; however, despite this, there is no uniform coverage in the current body of literature. This Handbook aids in filling the gap by exploring and critically evaluating the debates, issues and controversies of all aspects of hotel chains from their nature, fundamentals of existence and operation, expansion, strategic and operational aspects of their activities and geographical presence. It brings together leading specialists from a range of disciplinary backgrounds and regions to provide state of the art theoretical reflection and empirical research on current issues and future debates. Each of the five inter-related sections explores and evaluates issues that are of extreme importance to hotel chain management, focusing on theoretical issues, the expansion of hotel chains, strategic and operational issues, the view point of the individual affiliated hotel and finally the current and future debates in the theory and practice of hotel chain management arising from globalisation, demographic trends, sustainability and new technology development. It provides an invaluable resource for all those with an interest in hotel management, hospitality, tourism and business, encouraging dialogue across disciplinary boundaries and areas of study. This is essential reading for students, researchers and academics of Hospitality as well as those of Tourism, Marketing, Business and Events Management.
