Flamingos For Thanksgiving:

Metamorphosis of Memories Berni G. Plett, 2015-04-23 Gustavo Wholgemuth grew up in the landlocked country of Paraguay. After traveling the world and settling down in Canada, he accepts that his life is what it is: a roller coaster ride of recycled emotions that will only end when mortality finally arrives. One day, his daughter Julia requests that he should keep his promise and write down all the stories he used to tell her. *Metamorphosis of Memories* is filled with experiences that originate from innocence, life and death, love and pain, and the continuous struggles that a child of Mennonite missionaries deals with accepting his community's well-intended yet often misguided religious convictions. In these stories, Gustavo informs us how he was liberated from prejudice and the condemnation of others by the fortunate encounter with science and the even more fortunate marriage to his soul mate Dulcinea. When we recall a life memory, we do not remember the original event but the context in which we last recalled it, which in turn changes the accuracy of any story. Reminiscing about our past is the metamorphosis of our history into colorful stories, stories that we all carry etched on wings.
