Simple Machines

Directions: Read the passage below about feelings. Answer the questions about the text. Ask your own questions that can be answered by reading the text.

Rachel is studying about simple machines in her class. Simple machines are tools we use to make work easier. Rachel's homework is to look around her house and find an example of each simple machine. At first, she had a hard time finding even one simple machine. Then Rachel remembered that the things we use everyday may not look like a machine, but they still make work easier.

So Rachel went into the garage to see what she could find. As she turned the door knob, it occurred to her that this was a wheel and axle. One down...five more to go. Rachel walked a few steps and tripped over something. Her dad's hammer! A hammer is a lever! Four left. She noticed a basket of laundry next to the washer and looked up to see some drying on a clothesline. The clothesline ended in a pulley! This was easier than she had thought.

Rachel went back inside the house to get a drink. The kitchen door was propped open by a small block slid under the door... a wedge! That leaves two simple machines to find. She opened the refrigerator and the handle popped off dropping... a screw! Only one left...and she knew just where to find it. Out the front door, to the driveway, she walked up to her brother's skateboard ramp. An inclined plane.

Rachel's homework was complete. She had found all six simple machines. Now she could enjoy her glass of lemonade.

Answer these questions about the text.

1. What is this passage about?

2. Can you name the six simple machines?

3. Where might you find a lever and inclined plane in your home?

4. Why did Rachel have trouble finding simple machines at first?
