Higher Standard and Proficiency Candidates Douglas Craven Phillott,1911 The Frankfurt Kitchen Heidi

Laird,2021-07-22 The author grew up in Germany during the postwar era when the United States evolved from a military occupation force to a peacetime cultural power wielding vast influence in the world through its example as a country aspiring to great ideals like freedom equality inclusion acceptance of diversity and generosity This book tells the personal story of how the image of America shaped the author s youthful ideas about the world she wanted to live in as she struggled to make sense of her complicated heritage as the daughter of a Jewish father and a Christian mother and as an adolescent inheriting the aftermath of the Nazi reign of terror *The Elizabethan Player* David Albert Mann,2017-03-27 In this book first

published in 1991 David Mann argues for more attention to the performer in the study of Elizabethan plays and less concern for their supposed meanings and morals He concentrates on a collection of extracts from plays which show the Elizabethan actor as a character onstage He draws from the texts a range of issues concerning performance practice the nature of iterance doubling and its implications for presentational acting the importance of clowning and improvisation and the effects of audience and venue on the dynamics of performance The author suggests that the stage representation of players is in part a nostalgic farewell to the passing of an impure but perhaps more vital theatre and in part an acknowledgement of the threat the adult theatre s growing sophistication offered to its institutional and adolescent rivals This title will be of interest to students of Drama and Performance Law, Obligation, Community Daniel Matthews,Scott Veitch,2018-06-27 Against an

ever expanding and diversifying rights talk this book re opens the question of obligation from not only legal but also ethical sociological and political perspectives Its premise is that obligation has a primacy ahead of rights because rights attach to practices and modes of being that are already saturated with obligations Obligations thus lie at the core not just of law but of community Yet the distinctive meanings range and situations of obligation have tended to remain under theorised in legal scholarship In response this book examines the sense in which we are multiply bound beings to law and legal institutions as much as we are to place community memory and the various social institutions that give shape to collective life Sharing this set of concerns each of the international group of scholars contributing to this volume traces the specificity of the binding force of obligations their techniques and modes of expression as well as their centrally important role in giving form to lawful relations Together they provide an innovative and challenging contribution to legal scholarship one that will also be of relevance to those working in politics philosophy and social theory **The life-cycle in Western Europe, c.1300-c.1500**

Deborah Youngs,2020-01-03 This is the first study to examine the entire life cycle in the Middle Ages Drawing on a wide range of secondary and primary material the book explores the timing and experiences of infancy childhood adolescence and youth adulthood old age and finally death It discusses attitudes towards ageing rites of passage age stereotypes in operation and the means by which age was used as a form of social control compelling individuals to work govern marry and pay taxes The wide scope of the study allows contrasts and comparisons to be made across gender social status and geographical

location It considers whether men and women experienced the ageing process in the same way and examines the differences that can be discerned between northern and southern Europe The fourteenth and fifteenth centuries suffered famine warfare plague and population collapse This fascinating consideration of the life cycle adds a new dimension to the debate over continuity and change in a period of social and demographic upheaval
