Bright Kids Who Couldn't Care Less Ellen Braaten, 2023-02-08 He s so smart but he s no longer interested in school or any offline activities She used to love sports but now she just mopes around My kid has turned into such a slacker Sound familiar If you re wondering how your bright motivated little kid became such an unmotivated adolescent you re not alone Fortunately help is at hand In this compassionate guide psychologist and learning expert Ellen Braaten explains that kids who have lost the will to do anything other than play video games need more than simple encouragement or the right school teacher or coach to get back on track Instead Dr Braaten helps you understand the myriad biological psychological and social factors that affect motivation and get to know your own child s unique strengths weaknesses and personality traits better Gain vital tools for tackling the motivational problems that are so pervasive today and build a plan to boost your child s confidence and engagement in life

Thrivers Michele Borba, Ed. D., 2022-03-08 The bestselling author of *UnSelfie* offers 7 teachable traits that will safeguard our kids for the future We think we have to push our kids to do more achieve more BE more But we re modeling the wrong traits like rule following and caution and research shows it s NOT working This kind of Striver mindset isn t just making kids unhappier says Dr Michele Borba it s actually the opposite of what it takes to thrive in the uncertain world ahead Thrivers are different they flourish in our fast paced digital driven often uncertain world Why Through her in depth research Dr Borba discovered that the difference comes down not to grades or test scores but to seven character traits that set Thrivers apart confidence empathy self control integrity curiosity perseverance and optimism The even better news these traits can be taught to children at any age in fact parents and educators must do so In *Thrivers* Dr Borba offers practical actionable ways to develop these traits in children from preschool through high school showing how to teach kids how to cope today so they can thrive tomorrow

Fun, Taste, & Games John Sharp, David Thomas, 2019-03-12 Reclaiming fun as a meaningful concept for understanding games and play Fun is somewhat ambiguous If something is fun is it pleasant Entertaining Silly A way to trick students into learning Fun also has baggage it seems inconsequential embarrassing child s play In *Fun Taste* the seminal but underinfluential game *Myst* and how tastes change over time the shattering of the gamer community in Gamergate and an aesthetics of play that goes beyond games

Applied Behavior Analysis Research Made Easy Amber L. Valentino, 2022-01-02 Students and practitioners in the field of applied behavior analysis ABA often encounter barriers when conducting research including limited resources competing contingencies absence of a formal institutional review board and rigorous methodology requirements This book addresses these challenges

directly and offers readers strategies for contributing to research literature advancing their career and making professional scholarly submissions over the course of one's clinical life **Indigenous Digital Life** Bronwyn Carlson, Ryan

Frazer, 2021-10-04 Settler societies habitually frame Indigenous people as a people of the past their culture somehow frozen in time their identities tied to static notions of authenticity and their communities understood as in decline But this narrative erases the many ways that Indigenous people are actively engaged in future orientated practice including through new technologies Indigenous Digital Life offers a broad wide ranging account of how social media has become embedded in the lives of Indigenous Australians Centring on ten core themes including identity community hate desire and death we seek to understand both the practice and broader politics of being Indigenous on social media Rather than reproducing settler narratives of Indigenous deficiency we approach Indigenous social media as a space of Indigenous action production and creativity we see Indigenous social media users as powerful agents who interact with and shape their immediate worlds with skill flair and nous and instead of being a people of the past we show that Indigenous digital life is often future orientated working towards building better relations communities and worlds This book offers new ideas insights and provocations for both students and scholars of Indigenous studies media and communication studies and cultural studies , **A Coach's**

Too Much Fun Jesper Juul, 2024-12-10 The surprising history of the Commodore 64 the best selling home computer of the 1980s the machine that taught the world that computing should be fun The Commodore 64 C64 is officially the best selling desktop computer model of all time according to The Guinness Book of World Records It was also from 1985 to 1993 the platform for which most video games were made But while it sold at least twice as many units as other home computers of its time like the Apple II ZX Spectrum or Commodore Amiga it is strangely forgotten in many computer histories In Too Much Fun Jesper Juul argues that the C64 was so popular because it was so versatile a machine developers and users would reinvent again and again over the course of 40 years First it was a serious computer next a game computer then a computer for technical brilliance graphical demos using the machine in seemingly impossible ways then a struggling competitor and finally a retro device whose limitations are now charming The C64 Juul shows has been ignored by history because it was too much fun Richly illustrated in full color this book is the first in depth examination of the C64's design and history and the first to integrate US and European histories With interviews of Commodore engineers and with its insightful look at C64 games music and software from Summer Games to International Karate to Simons BASIC Too Much Fun will appeal to those who used a Commodore 64 those interested in the history of computing and video games and computational literacy or just those who wish their technological devices would last longer
