Fourth Pillar of Business - Finance & Accounts CA. Senthil Kumar R., 2025-07-14 Why This Book Matters Over the past 25 years in the field of Accounts and Finance I have witnessed a

recurring and worrying pattern among MSME entrepreneurs finance is often treated as an afterthought Despite being the backbone of any business the financial function is overlooked leading to a lack of internal controls visibility and accountability Many business owners have no access to their own books of accounts are unaware of critical login credentials such as for Income Tax GST TDS ROC and banking and lack systems for password management data backup or digital asset control In a world where data is more valuable than money such lapses pose serious risks from penalties and data breaches to business failure An even deeper concern is the knowledge gap among MSME accountants More than 80% do not regularly update themselves with rapidly changing laws and notifications from tax and regulatory departments Today s audits are fully digital and even a small error whether by omission or ignorance can trigger significant consequences This book aims to address these gaps Written in a crisp and structured manner it provides practical non theoretical guidance to MSME entrepreneurs It will help you understand your financial systems better build a stronger internal control framework and avoid costly compliance mistakes Most importantly it empowers business owners to take control of their financial data and systems If MSMEs are strong the nation is stronger With over 80% contribution to employment and GDP strengthening MSMEs ensures a healthier economy This book is a small step toward that big goal Let it be your eye opener and your action starter
