Managing is a prime example of applied philosophy **Modern Corporation and American Political Thought** Scott Bowman, 2010-11-01 **A Social History of Western Political Thought** Ellen Meiksins Wood, 2022-08-30 A sweeping and nuanced materialist history of Western political thought In this groundbreaking work Ellen Meiksins Wood rewrites the history of political theory from Plato to Rousseau Treating canonical thinkers as passionately engaged human beings Wood examines their ideas not simply in the context of political languages but as creative responses to the social relations and conflicts of their time and place She identifies a distinctive relation between property and state in Western history and shows how the canon while largely the work of members or clients of dominant classes was shaped by complex interactions among proprietors labourers and states Western political theory Wood argues owes much of its vigour and also many ambiguities to these complex and often contradictory relations In the first volume she traces the development of the Western tradition from classical antiquity through to the Middle Ages in the perspective of social history a significant departure not only from the standard abstract history of ideas but also from other contextual methods From the Ancient Greek polis of Plato Aristotle Aeschylus and Sophocles through the Roman Republic of Cicero and the Empire of St Paul and St Augustine to the medieval world of Averroes Thomas Aquinas and William of Ockham Wood offers a rich dynamic exploration of thinkers and ideas that have indelibly stamped our modern world In the second volume Wood addresses the formation of the modern state the rise of capitalism the Renaissance and Reformation the scientific revolution and the Age of Enlightenment which have all been attributed to the early modern period Nearly everything about its history remains controversial but one thing is certain it left a rich and provocative legacy of political ideas unmatched in Western history The concepts of liberty equality property human rights and revolution born in those turbulent centuries continue to shape and to limit political discourse today Assessing the work and background of figures such as Machiavelli Luther Calvin Spinoza the Levellers Hobbes Locke and Rousseau Ellen Wood vividly explores the ideas of the canonical thinkers not as philosophical abstractions but as passionately engaged responses to the social conflicts of their day Refounding Corporate Governance Bruce Cutting, Alexander Kouzmin, 2011 Re founding Corporate Governance The Metaphysics of Corporate Leadership is a deconstructive tour de force and leads the reader to an understanding of the further evolution of corporate governance in considered ways and brings them together in a coherent and understandable way This book looks at the role of the individual in the organization and allows readers to reflect on their own role and interaction within their organization It focuses particularly on leaders managers and corporate board members and on how power and leadership in the corporation are operating now The volume also look Wealth by Stealth H. Unfolding Stakeholder Thinking Jörg Andriof, Sandra Waddock, Bryan Husted, Sandra Sutherland Rahman, 2017-09-08 This book the first of a two volume series argues that today stakeholder thinking has evolved into the study of interactive mutually engaged and responsive

relationships that establish the very context of doing modern business and create the groundwork for transparency and accountability This book makes it clear that in today's societies successful companies are those that recognize that they have responsibilities to a range of stakeholders that go beyond mere compliance with the law or meeting the fiduciary responsibility inherent in maximizing returns to shareholders If in the past the focus was on enhancing shareholder value now it is on engaging stakeholders for long term value creation The process of engagement creates a dynamic context of interaction mutual respect dialogue and change not a one sided management of stakeholders Indeed the authors believe the very term stakeholder management to be outdated and corporate centric Companies can manage their relationships with stakeholders but frequently cannot actually manage the stakeholders themselves because as the activist and collaborative initiatives described in this volume suggest company stakeholder relationships are not one way streets and different institutions bring different agendas goals and priorities to the engagement There are clear implications to the way in which stakeholder thinking is unfolding today If in the past corporate social responsibility was simply seen as profitability plus compliance plus philanthropy now responsible corporate citizenship or corporate responsibility means companies being more aware of and understanding the societies in which they operate Corporate responsibility means recognising that day to day operating practices affect stakeholders and that it is in those impacts where responsibility lies not merely in efforts to do good Companies are now faced with a wide array of challenges that mean that senior executives and managers need to be able to deal with issues including greater accountability human rights abuses sustainability strategies corporate governance codes workplace ethics stakeholder consultation and management Stakeholder thinking needs to capture these new realities The global reach of multinational corporations has served to highlight the need for the re integration of business into society relationships into stakeholder relations and ethics into managerial practice The rise in power of global activism involving NGOs and global business involving multinational corporations makes it even more critical today for companies to consider the power and interests of corporate stakeholders when developing strategic plans The interactivity and mutuality of relationships described in this book make it clear that firms and stakeholders share the power and responsibility to influence both the profit potential of the firm and how the benefits of the firm's success impact on society This important volume brings together leading academic thought on stakeholder thinking for the first time Unfolding Stakeholder Thinking will be indispensable to corporate managers NGOs and academics seeking greater understanding of the dynamics of stakeholder thinking in a world of rapidly changing responsibilities A companion volume Unfolding Stakeholder Thinking 2 focusing on practical issues such as relationship management communication reporting and performance is also available

Politics and the Intellectual Irving Howe, 2010

A compilation of Irving Howe's interviews during the last fifteen years of his life this book represents what could be viewed as the sequel to Howe's intellectual autobiography *A Margin of Hope* which took the story of his life only up to the late 1970s. Many of these interviews were never published and have existed only as personal tapes in the hands of such scholars and activists as Todd Gitlin and Maurice Isserman. Others were originally published in such venues as *The New York Times*, *The Jerusalem Post* and the PBS documentary *Arguing the World*. Howe never organized his thoughts about the last fifteen years of his life during which he gained renown for *World of Our Fathers*, received a MacArthur Fellowship and became widely regarded as the leading left liberal intellectual in the U.S. and arguably the leading literary critic in America following the deaths of Lionel Trilling and Edmund Wilson. During this time Howe also struggled to redefine the American Left in an environment that discounted and marginalized it. Indeed these interviews may have particular significance today a period of new opportunities for the liberal Left yet one in which it struggles to construct some coherent identity and compelling program. The editors worked with the full cooperation of Howe's family. His daughter Nina contributed an afterword and provided a number of illustrations and photos that have never before appeared in print. **Book Jacket**
