Trident: Naval Power in Southeast Asia, 1968-1972 John Darrell Sherwood,2015-05-01 This commemoration booklet focuses on naval air power during the final years of the Vietnam War For much of this period Navy aircraft sought to hamper the flow of supplies down the Ho Chi Minh Trail in Laos a huge investment in air power resources that ultimately proved fruitless After North Vietnam s invasion of the South in 1972 however Navy tactical aviation as well as naval gunfire support proved critical not only in blunting the offensive but also in persuading North Vietnam to arrive at a peace agreement in Paris in1973 The Navy s forward presence saved the day in 1972 and allowed President Nixon to finally achieve peace with honor *Air Power's Lost Cause* Brian D. Laslie,2021-05-14 The first comprehensive treatment of the air wars in Vietnam

Filling a substantial void in our understanding of the history of airpower in Vietnam this book provides the first comprehensive treatment of the air wars in Vietnam Brian Laslie traces the complete history of these air wars from the beginning of American involvement until final withdrawal Detailing the competing roles and actions of the air elements of the United States Army Navy and Air Force the author considers the strategic operational and tactical levels of war He also looks at the air war from the perspective of the North Vietnamese Air Force Most important for understanding the US defeat Laslie illustrates the perils of a nation building a one dimensional fighting force capable of supporting only one type of war

Nixon's Trident John Darrell Sherwood,2009 This book focuses on the three prongs of the naval trident that President Nixon wielded during the final years of the Vietnam War naval air power naval bombardment and mine warfare For much of this period Navy aircraft sought to hamper the flow of supplies down the Ho Chi Minh Trail in Laos a huge investment in air

power resources that ultimately proved fruitless After North Vietnam's invasion of the South in 1972 however Navy tactical aviation as well as naval bombardment proved critical not only in blunting the offensive but also in persuading North Vietnam to arrive at a peace agreement in Paris in 1973 For the first time in the war the Navy was also authorized to close Haiphong Harbor and North Vietnam's other ports with naval mines an operation that still stands out as a textbook example of how mine warfare can inflict a major economic and psychological blow on the enemy with minimal casualties for either side Thus naval power was indispensable to ending America's longest war Provided by publisher Sequels Janet G.
