

Management

third SOUTH AFRICAN edition

Since 2001, **Management** has established itself as an authoritative reference for both students and practitioners through its insightful and dynamic examination of key management principles.

The fully-updated new edition consolidates this book's position as the most appropriate South African text on these principles, combining a global perspective of management theories and practices with examples of familiar organizations in South Africa and the rest of the continent.

The book focuses on the development of management competencies such as communication, planning and strategizing, organizational structure and design, decision-making and problem-solving, planning, motivation, teamwork, self-management, leadership, and organizational change and innovation, as well as providing invaluable guidance on ethics and corporate social responsibility, and culture and workforce diversity.

With its improved design and additional features, **Management** presents a more accessible and comprehensive version of the previous edition:

- A new chapter on contemporary issues, such as HIV/AIDS, BBBEE, and ecological issues, has been added.
- Each chapter now contains a section defining key terms and concepts, as well as a chapter summary for ease of reference.
- Questionnaires and skills-based exercises throughout the book help to enhance the reader's managerial competencies.
- The 'South African insight' sections have been updated or replaced with current case studies.

Discussions on well-known companies such as Coca-Cola, SABCO, South African Airways, Mercedes-Benz South Africa, Microsoft, BMW South Africa, Capitec Bank, Harley-Davidson, Black Like Me, Absa, Johnson & Johnson, Standard Bank, Telkom, Volkswagen, and SABMiller not only inform but add appeal to an already interesting and lively text.

Management is an essential resource for both students and practitioners in fields ranging from human resources to business management and includes PowerPoint slides and MCQ's for lecturers.

Management 3rd Edition Hellriegel:

Management Principles P. J. Smit, 2007 Book CD To improve on an award winning book poses a major challenge to its authors The authors of this book took the challenge head on by conducting a major research study to determine what exactly the outcomes are that managers at different levels must deliver in contemporary organisations in South Africa and the rest of Africa The findings of this study which dealt with current and near future management issues as well as classical and contemporary thinking about management were used as the blueprint for the updating of this book After placing management in context the authors deal with the knowledge skills and dispositions required of managers to perform the management functions of planning organising leading and controlling in a volatile business world Examples of how the functions are applied in practice are cited throughout the book These examples refer mainly to South African organisations and situations that managers in South Africa and Africa have to deal with to create and sustain a competitive advantage for their organisations The book endeavours to break down the silo effect of seeing the management functions as separate activities This is done by continuously placing the management function at hand in a bigger context This enables learners of management to assess the implications of management decisions on different people processes systems and so on that make up the organisation *Management Ideas* James W.
