To answer your
first questions

Dear Customer,

this Quick Reference Guide does not explain how all the features of the Sound System work. Always refer to the Sound System manual for information on how to operate the system as well as for important warnings.

We wish you safe and enjoyable driving!

Volkswagen AG

Sound system overview

- The unit turns off automatically when you remove the key from the ignition lock.
- The radio can be turned on while the ignition key is removed by simply pressing the ON/STY button. The unit will turn off again automatically after about 1 hour. This procedure can be repeated as often as desired.
- The Volkswagen Sound System has an anti-theft feature. When the unit is turned off and the ignition key is removed from the ignition switch, the flashing LED indicates that the radio is equipped with an anti-theft coding system. If "N/C" appears in the display after switching the radio on, it can then only be operated again after entering the correct code. See your Sound System manual for more details about coding and entering your radio.

Operating the Sound System while driving

Driving on wet or icy roads increases the risk of skidding or losing control. Therefore you should only operate the radio system with an increased focus when the traffic situation really allows.
