Record United States. Congress, 1978 **Sibyls, Scriptures, and Scrolls** Joel Baden, Hindy Najman, Eibert J.C.

Tigchelaar, 2016-10-11 This volume a tribute to John J Collins by his friends colleagues and students includes essays on the wide range of interests that have occupied John Collins s distinguished career Topics range from the ancient Near East and the Hebrew Bible to the Dead Sea Scrolls and Second Temple Judaism and beyond into early Christianity and rabbinic Judaism The contributions deal with issues of text and interpretation history and historiography philology and archaeology and more The breadth of the volume is matched only by the breadth of John Collins s own work **International Relations in a Relational Universe** Milja Kurki, 2020-01-30 It is time for International Relations IR to join the relational revolution afoot in the natural and social sciences To do so more careful reflection is needed on cosmological assumptions in the sciences and also in the study and practice of international relations In particular it is argued here that we need to pay careful attention to whether and how we think relationally Building a conversation between relational cosmology developed in natural sciences and critical social theory this book seeks to develop a new perspective on how to think relationally in and around the study of IR International Relations in a Relational Universe asks What kind of cosmological background assumptions do we make as we tackle international relations today and where do our assumptions about states individuals or the international come from And can we reorient our cosmological imaginations towards more relational understanding of

the universe and what would this mean for the study and practice of international politics The book argues that we live in a world without things a world of processes and relations It also suggests that we live in relations which exceed the boundaries of the human and the social in planetary relations with plants and animals Rethinking conceptual premises of IR Kurki points towards a planetary politics perspective within which we can reimagine IR as a field of study and also political practices including the future of democracy
