Childhood Development and Education in Singapore Oon Seng Tan, Kenneth K. Poon, Beth Ann O'Brien, Anne Rifkin-Graboi, 2022-04-06 This book presents a holistic view of child development that emphasises on being mindful of the child as well as his/her environment. It presents a history of the development of the early childhood education sector in Singapore. This book consolidates the more recent research work that has been done in early childhood education specifically by researchers from the National Institute of Education Singapore. It discusses topics focusing on child development and education, teacher training and wellbeing, and the development of culturally appropriate assessment. The content of this book centers around the child with a consideration of influences in the environment that can impact child development.

Essentials of Public Health Management L. Fleming Fallon (Jr.), Eric Zgodzinski, 2012 Written for both professionals and students, *Essentials of Public Health Management* is a practical, nontheoretical reference that will prepare the reader for the hands-on management and daily operations of a complex public health department or agency. **Magnetic Appeal** Kelly Joyce, 2010-12-15 Magnetic Resonance Imaging, not so long ago a diagnostic tool of last resort, has become pervasive in the landscape of consumer medicine. Images of the forbidding tubes with their promises of revelation surround us in commercials and on billboards. *Magnetic Appeal* offers an in-depth exploration of the science and culture of MRI, examining its development and emergence as an imaging technology, its popular appeal and acceptance, and its current use in health care. Understood as modern and uncontroversial by health care professionals and in public discourse, the importance of MRI or its supposed infallibility has rarely been questioned. In *Magnetic Appeal*, Kelly A. Joyce shows how MRI technology grew out of serendipitous circumstances and was adopted for reasons having little to do with patient safety or evidence of efficacy. Drawing on interviews with physicians and MRI technologists, as well as ethnographic research conducted at imaging sites and radiology conferences, Joyce demonstrates that current beliefs about MRI draw on cultural ideas about sight and technology and are reinforced by health care policies and insurance reimbursement practices. Moreover, her unsettling analysis of physicians and technologists' work practices lets readers consider that MRI scans do not reveal the truth about the body as is popularly believed, nor do they always lead to better outcomes for patients. Although clearly a valuable medical technique, MRI technology cannot necessarily deliver the health outcomes ascribed to it. *Magnetic Appeal* also addresses broader questions about the importance of medical imaging technologies in American culture and medicine. These technologies, which include ultrasound, X-ray, and MRI, are part of a larger trend in which visual representations have become central to American health identity and social relations. **Posthumanist Learning** Cathrine Hasse, 2020-01-03 In this text

Hasse presents a new inclusive posthuman learning theory designed to keep up with the transformations of human learning resulting from new technological experiences as well as considering the expanding role of cyborg devices and robots in learning. This ground breaking book draws on research from across psychology, education and anthropology to present a truly interdisciplinary examination of the relationship between technology, learning and humanity. Posthumanism questions the self evident status of human beings by exploring how technology is changing what can be categorised as human. In this book the author applies a posthumanist lens to traditional learning theory, challenging conventional understanding of what a human learner is and considering how technological advances are changing how we think about this question. Throughout the book Hasse uses vignettes of her own research and that of other prominent academics to exemplify what technology can tell us about how we learn and how this can be observed in real life settings. *Posthumanist Learning* is essential reading for students and researchers of posthumanism and learning theory from a variety of backgrounds including psychology, education, anthropology, robotics and philosophy.

Biomedicalization Adele E. Clarke, Laura Mamo, Jennifer Ruth Fosket, Jennifer R. Fishman, Janet K. Shim, 2010-08-31 Essays describing how dramatic and especially technoscientific changes in the constitution, organization and practices of contemporary biomedicine have coalesced since the mid 1980s in biomedicalization: the second transformation of American medicine.

Fundamentals of Public Communication Campaigns Jonathan Matusitz, 2022-09-08 The most comprehensive and up to date textbook on public communication campaigns currently available. *Fundamentals of Public Communication Campaigns* provides students and practitioners with the theoretical and practical knowledge needed to create and implement effective messaging campaigns for an array of real world scenarios. Assuming no prior expertise in the subject, this easily accessible textbook clearly describes more than 700 essential concepts of public communication campaigns. Numerous case studies illustrate real world media campaigns such as those promoting COVID 19 vaccinations and social distancing campaigns, raising awareness of LGBTQ issues, entertainment and Hollywood celebrity campaigns and social activist initiatives including the MeToo movement and Black Lives Matter (BLM). Opening with a thorough introduction to the fundamentals of public communication campaigns, the text examines a wide array of different health communication campaigns, social justice and social change campaigns and counter radicalization campaigns. Readers learn about the theoretical foundations of public communication campaigns, the roles of persuasion and provocation, how people's attitudes can be changed through fear appeals, the use of ethnographic research in designing campaigns, the ethical principles of public communication campaigns, the potential negative effects of public messaging and much more. Describes each of the 10 steps of public communication campaigns from defining the topic and setting objectives to developing optimal message content and updating the campaign with timely and relevant information. Covers public communication campaigns from the United States as well as 25 other countries including Australia, Brazil, Canada, China, Egypt, India, Israel, Singapore, South Korea.

and the United Kingdom Offers a template for creating or adapting messages for advertising public relations health safety entertainment social justice animal rights and many other scenarios Incorporates key theories such as the Diffusion of Innovations DoI theory social judgment theory SJT the Health Belief Model HBM social cognitive theory SCT and self determination theory SDT Includes in depth case studies of communication campaigns of Islamophobia antisemitism white supremacism and violent extremism Fundamentals of Public Communication Campaigns is the perfect textbook for undergraduate students across the social sciences and the humanities and a valuable resource for general readers with interest in the subject **Children's Books in Print, 2007** ,2006 *Between Chance and Choice* Harald

Atmanspacher,Robert Bishop,2014-06-23 Are choice and free will possible in a world governed by deterministic fundamental equations What sense would determinism make if many events and processes in the world seemed to be governed by chance These and many other questions emphasize the fact that chance and choice are two leading actors on stage whenever issues of determinism are under discussion This volume collects essays by accomplished scientists and philosophers addressing numerous facets of the concept of determinism The contributions cover viewpoints from mathematics physics cognitive science and social science as well as various branches of philosophy They offer valuable reading for everyone interested in the interdisciplinary relations between determinism chance and free will The desire to foster an interdisciplinary dialogue on determinism chance and free will was the initial impetus leading to an international workshop on determinism taking place at Ringberg Castle near Lake Tegernsee south of Munich in June 2001 Representatives from mathematics physics cognitive and social science and various branches of philosophy convened to discuss numerous aspects of determinism from their disciplinary perspectives This volume is based on elaborated and refereed manuscripts of their lectures *Decoding*

Schopenhauer's Metaphysics Bernardo Kastrup,2020-07-31 First proposed more than 200 years ago Schopenhauer s extraordinarily prescient metaphysics if understood along the lines thoroughly elucidated and substantiated in this volume offers powerful answers not only to the paradoxes of quantum mechanics but also to modern philosophical dilemmas such as the hard problem of consciousness which plagues mainstream physicalism and the subject combination problem which plagues constitutive panpsychism This invaluable treasure of the Western philosophical canon has eluded us so far because Schopenhauer s argument has been consistently misunderstood and misrepresented even at the hands of presumed experts Hoping to change this situation Decoding Schopenhauer s Metaphysics offers a conceptual framework a decoding key for unlocking the sense of Schopenhauer s metaphysical contentions in a way that renders them mutually consistent With this key in mind even those who earlier dismissed Schopenhauer s metaphysics should be able to return to it with fresh eyes and at last grasp its meaning And for those as yet unacquainted with Schopenhauerian thought this volume offers a succinct and accessible entry path Social Work Joyce Lishman,Chris Yuill,Jillian Brannan,Alastair Gibson,2018-01-27 Help your
