Fetal Pig Dissection Simulation:

Virtual Fetal Pig Dissection as an Agent of Knowledge Acquisition and Attitudinal Change in Female High School Students Rebecca S. Maloney, 2002 One way to determine if all students can learn through the use of computers is to introduce a lesson taught completely via computers and compare the results with those gained when the same lesson is taught in a traditional manner This study attempted to determine if a virtual fetal pig dissection can be used as a viable alternative for an actual dissection for females enrolled in high school biology classes by comparing the knowledge acquisition and attitudinal change between the experimental virtual dissection and control actual dissection groups Two hundred and twenty four students enrolled in biology classes in a suburban all girl parochial high school participated in this study Female students in an all girl high school were chosen because research shows differences in science competency and computer usage between the genders that may mask the performance of females on computer based tasks in a science laboratory exercise Students who completed the virtual dissection scored significantly higher on practical and objective tests that were used to measure knowledge acquisition Attitudinal change was measured by examining the students attitudes toward dissections computer usage in the classroom and toward biology both before and after the dissections using pre and post surveys Significant results in positive gain scores were found in the virtual dissection group's attitude toward dissections and their negative gain score toward virtual dissections Attitudinal changes toward computers and biology were not significant A purposefully selected sample of the students were interviewed in addition to gathering a sample of the students' daily dissection journals as data highlighting their thoughts and feelings about their dissection experience Further research is suggested to determine if a virtual laboratory experience can be a substitute for actual dissections or may serve as an enhancement to an actual dissection

Comparison of Traditional and Virtual Fetal Pig Dissection in High School Biology James J. Jerome, 2001 *Foundations of Agricultural Education, Fourth Edition* B. Allen Talbert, Barry Croom, Sarah E. LaRose, Rosco Vaughn, Jasper S. Lee, 2022-05-15 *Foundations of Agricultural Education Fourth Edition* is designed for college students in agricultural education and others interested in agricultural education as fundamental preparation for the profession Teachers of agricultural education and those in support roles will find this book to be a helpful resource This fourth edition is updated to reflect current educational theory and practices and includes changed laws and initiatives since the third edition This updated textbook is appropriate for both introductory and advanced courses Each chapter begins with a scenario designed to engage the learner in thinking about the content of that chapter and draws from relevant research and literature Photos illustrations and tables provide greater context to key concepts and every chapter concludes with questions for review and discussion as well as additional activities designed to guide the learner into further exploration *Foundations of Agricultural Education Fourth Edition* is an engaging immersive guide that will help prepare the next generation of agricultural educators

Designing Learning for Tablet Classrooms Donovan R. Walling, 2014-02-04

The versatile cost effective technology of the tablet computer has proved to be a good fit with the learning capabilities of today's students. Not surprisingly in more and more classrooms the tablet has replaced not only traditional print materials but the desktop computer and the laptop as well. Designing Instruction for Tablet Classrooms makes sense of this transition clearly showing not just how and why tablet based learning works but how it is likely to evolve. Written for the non technical reader it balances elegant theoretical background with practical applications suitable to learning environments from kindergarten through college. A wealth of specialized topics ranges from course management and troubleshooting to creating and customizing e-textbooks from tablet use in early and remedial reading to the pros and cons of virtual field trips. And for maximum usefulness early chapters are organized to spotlight core skills needed to negotiate the new design frontier including Framing the learning design approach Analyzing the learning environment Designing learning that capitalizes on tablet technology Developing activities that match learning needs Implementing the learning design Conducting evaluations before during and after. This is proactive reading befitting a future of exciting developments in educational technology. For researchers and practitioners in this and allied fields Designing Instruction for Tablet Classrooms offers limitless opportunities to think outside the box.

Integrate the Internet Across the Content Areas Lynn Van Gorp, 2007-07-01 Bring your classroom into the 21st century using the Internet. Useful strategies. An annotated list of teacher tested websites and easy to follow lesson plans for all content areas make this resource a perfect guide for integrating the Internet into the curriculum. Student activities student research suggestions and 24 model lessons that clearly demonstrate how to effectively use websites are provided along with information on teacher and student resource sites. The open ended activities help students develop thinking skills and learn to search the Web and evaluate websites. Topics covered include computer management differentiation safety issues searching the Internet copyright guidelines and more. Biology, 1999 *How Shelter Pets are Brokered for Experimentation* Allie Phillips, 2010-12-28 Back in the 1940s the practice referred to as Pound seizure became a common practice in taxpayer funded animal shelters across the country. Whether for cosmetic testing human or animal drug testing medical technique and tool testing or biochemical testing these once family pets are subjected to experimentation that often ends in death. While many states fail to keep accurate data the number of pets that become victims of pound seizure easily reaches the thousands and though most citizens are unaware of the practice it may very well be happening at their local animal shelter. Pound seizure remains a dirty little secret in American society but the practice is moving toward extinction with the help of local

citizens advocating for change at their shelter as well as animal rescue and welfare organizations providing assistance and advocacy Learning more about the practice as well as alternatives will help give readers a fuller picture of what's happening in American animal shelters and what they can do to stem the tide of dealers and brokers sweeping off animals to their almost certain demise **Compute** ,1993 The American Biology Teacher ,1999 **Encounters with Life** Hans Wachtmeister,Larry Scott,2006-01-01 This laboratory manual is designed for use in a one or two semester introductory biology course at the college level and can be coordinated with any general biology textbook Each exercise is a self contained unit with clearly stated objectives a variety of learning experiences and thought provoking review questions *Laboratory Manual for Anatomy and Physiology* Connie Allen,Valerie Harper,2011-01-05 The Laboratory Manual for Anatomy and Physiology by Allen and Harper presents material in a clear and concise way It is very interactive and contains activities and experiments that enhance readers ability to both visualize anatomical structures and understand physiological topics Lab exercises are designed to require readers to first apply information they learned and then to critically evaluate it All lab exercises promote group learning and the variety offers learning experiences for all types of learners visual kinesthetic and auditory Additionally the design of the lab exercises makes them easily adaptable for distance learning courses *Anatomy and Physiology for the Manual Therapies* Andrew Kuntzman,Gerard J. Tortora,2009-08-17 Anatomy Physiology for the Manual Therapies 1e is designed to meet the specific needs of students preparing for careers in the manual therapies such as massage therapy and careers as physical therapy assistants This book provides the most appropriate depth of coverage for each body system in both narrative and visuals and by including relevant applications linking the content to situations they will face in their careers *More Biology in the Laboratory* Doris R. Helms,1989-08-15 This book is designed to encourage and give direction to the natural urge to inquire about living things what they are and how and why they work as they do One intention in writing this manual was to assure that learning in the laboratory need not depend on expensive elaborately furnished facilities Thus requirements for materials and equipment have been kept to a minimum Pref **Anatomy and Physiology** Gail Jenkins,Christopher Kemnitz,Gerard J. Tortora,2006-02-17 A text with integrated multimedia **Why Dissection?** Lynette A. Hart,Mary W. Wood,Benjamin L. Hart,2008-02-28 Why do students continue to dissect animals in biology classes Why despite the excellence of teaching resources for veterinary and human medical education that substitute for dissection do those provided for pre college students fall short in convenience flexibility and coordination with the curriculum Why Dissection Animal Use in Education looks beyond the typical yes or no debate about dissection to understand how we came to our current practice of dissection in intermediate and high school biology even as preparation of health professionals has moved away from dissection Despite the many forces that support the continued use of dissection in pedagogy teachers retain much autonomy in how they teach in the classroom and legislation in many states provide specific requirements for what should and should not be taught in separated science and health curricula offering students the option

to not engage in dissection Why Dissection walks students teachers and parents through these options to help them make more informed choices regarding their science education options The Biotechnology Software Directory ,1996 Directory of scientific software Each entry includes producer information a summary of the program system requirements and price
