

ALARM (where provided)

WHEN THE ALARM IS TRIGGERED

The alarm comes into action in the following cases:

- ☐ unlawful opening of one of the doors, bonnet or boot (perimetral protection);
- ☐ attempt to start the engine with unauthorised key;
- ☐ battery cable cutting;
- ☐ presence of moving bodies in the passenger's compartment (volumetric protection);
- ☐ abnormal raising/sloping of the car.

Depending on the markets, the cutting in of the alarm causes operation of the siren and direction indicators (for about 26 seconds). The ways of operating and the number of cycles may vary depending on the markets.

A maximum number of sound/sight cycles is however envisaged.

Volumetric and anti-raising protections can be cut off by operating the front ceiling light controls (see paragraphs "Volumetric protection sensors" and "Anti-raising sensor" on the following pages).

IMPORTANT The engine immobiliser function is guaranteed by the Fiat CODE system, which is automatically activated when the ignition key is removed.

HOW TO ACTIVATE THE ALARM fig. 12

With the doors, bonnet and boot shut and ignition key to **OFF** or removed, point the key with remote control or removed, point the key with remote control in the direction of the car, then press and release the button .

With the exception of certain markets, the system sounds a "beep" and the doors are locked.

Engagement of the alarm is preceded by a self-diagnostic test. If a fault is detected the system sounds a further warning "beep" and the display shows the relevant message (see section "Warning lights and messages").

In this case, switch the alarm system off by pressing button , check that the doors, bonnet and tailgate are properly shut, then switch the system on again by pressing button .

fig. 12

15010000

If the doors, bonnet and boot are shut correctly and the warning "beep" is repeated, the system self-diagnostics has detected a system operating fault. It is therefore necessary to contact a Fiat Dealership.

IMPORTANT Operating a door with the metal insert of the key will not activate the alarm.

IMPORTANT The alarm is built in compliance with the law and regulations of the different destination countries.
