Global Business Today-Instructors Text Hill Charles, 1998 Teaching in the Global Business Classroom Carol Dalglish, Peter Evans, 2010-01-01 This book is an excellent resource for university lecturers facing the challenges of working in multicultural classrooms as it examines all aspects raised from the different perspectives of the stakeholders. This book adds both research and practical examples to an already established approach to learning both in schools and universities. Whilst aimed at university business lecturers, secondary teachers and trainee teachers would also gain from the reflection of the impact of international students in relation to teaching and learning. Carole Marshall Professional Development in Education The text is succinct, easy to follow and broken up with helpful subtitles. This book is recommended for all new higher education teachers and demonstrators and as a resource for both lecturer training and for continuing professional development purposes. Barbara Chandler Studies in Higher Education One of the great challenges for teachers in many tertiary institutions is to effectively understand the complex multicultural classroom both as a consequence of increasing international student mobility and as a result of the raised cultural diversity of domestic populations.
