Rationality and Scientific Lifestyle for Health Ali Akbar Moosavi-Movahedi, 2021-07-10 This book argues that to be healthy human beings should love nature and stay in balance with it as much as possible In other words do not unbalance nature so that your own balance is not disturbed The best and healthiest way for human beings to live is to find balance in life and nature In this regard the book discusses useful nutritious functional foods nutraceuticals and antioxidants and how natural molecules which are provided by nature can be the best medicine for human beings At a molecular level stress is defined by the presence of unbalanced free radicals in the body Most diseases especially type 2 diabetes which accounts for the majority of diabetics can be traced back to this problem Our scientific evidence indicates that type 2 diabetes isn't just a disease resulting from sugar but also from stress The book seeks to promote a healthier lifestyle by considering the psychoemotional dimension of wellness And finally it contends that good sleep is at the root of health and happiness for humanity and that unbalanced free radicals are expelled from the body during restful sleep The authors hope that this book will be a helpful guide and source of peace for readers especially given their need for inner calm during the COVID 19 pandemic and that the suggestions provided will show them the way to a better life

A Sleepwalker's Guide to Social Media Tony D. Sampson, 2020-07-09 Positing online users as sleepwalkers Tony Sampson offers an original and compelling approach for understanding how social media platforms produce subjectivities Drawing on a wide range of theorists including A N Whitehead and Gabriel Tarde he provides tools to track his sleepwalker through the dark refrain of social media a refrain that spreads through viral platform architectures with a staccato like repetition of shock events rumours conspiracy misinformation big lies search engine weaponization data voids populist strongmen immune system failures and far right hate speech Sampson's sleepwalker is not a pre-programmed smartphone junkie but a conceptual personae intended to dodge capture by data doubles and lookalikes Sleepwalkers are neither asleep nor wide awake they are a liminal experimentation in collective mimicry and self-other relationality Their purpose is to stir up a new kind of community that emerges from the potentialities of revolutionary contagion At a time in which social media is influencing more people than ever A Sleepwalker's Guide to Social Media is an important reference for students and scholars of media theory digital media and social media
